Senses of Place: Senses of Time Dec 22 2022 Bringing together case studies from Ireland, the Netherlands, Canada, Germany and Mexico, this book examines the link between senses of place and senses of time. It suggests that not only do place identities change through time, but imagined pasts also provide resources which the present selects and packages for its own contemporary purposes and for forwarding to imagined futures. The reasons behind the creation of place image are also explored, setting them within political and social contexts. In its three main sections - Heritage in the Creation of Senses of Place; Heritage and Conflicting Identities; and Heritage and the Creation of Senses of Place - the book examines the creation of place identities at the urban, rural, regional and international scales. It questions how senses of place interact with senses of ethnic/cultural identity, what the roles of government, media, residents and tourists are in creating senses of place, and how and why all these variables change through time.

Place, Time, and Being in Japanese Architecture Sep 19 2022 "In addition to highlighting the human benefits of built environments which relate to particular place, time and being, many of the Japanese buildings examined illustrate practical strategies for revealing these universal parameters which are equally applicable beyond Japan. It is suggested that wider use of some of these approaches could not only help to sustain both environmental and cultural identities against the homogenising effects of globalisation, but also has the potential to heighten our appreciation of the peculiar condition of being here now."--Jacket.

Alles behalve de waarheid Oct 20 2022 Gillian McAllister schreef met *Alles behalve de waarheid* een intense roman over wat je elkaar vertelt en wat niet, en over de alles overwinnende kracht van de liefde. Het begon allemaal met een e-mail. Het scherm van Jacks iPad lichtte midden in de nacht op. Het was niet Rachels bedoeling om te kijken. Ze houdt van Jack en draagt zijn kind. Ze vertrouwt hem, ook al kennen ze elkaar nog maar kort. Maar nu Rachel het bericht gezien heeft, laat het haar niet meer los en stort haar leven als een kaartenhuis in. Waarom loog Jack over zijn verleden? Wat heeft hij precies te verbergen? Heeft Rachel niet het recht om de waarheid te weten? Maar is ze zelf wel oprecht naar Jack over haar eigen verleden?

Another Time, Another Place May 15 2022 It was a time of extreme peril. The Great Depression was winding down and World War II was starting. The author witnessed the Greatest Generation first hand as he saw many young men--including his older brother--leave town and go off to war. On the home front, there developed a closeness and support of family, friends and neighbors, not seen before or since. Through good and bad times, the towns young boys hiked, fished, hunted and trapped in the streams, fields, forests and mountains surrounding their homes. It was truly an era that will never be again.

Women in Dramatic Place and Time Feb 24 2023 Twenty-nine collected essays represent a critical history of Shakespeare's play as text and as theater, beginning with Samuel Johnson in 1765, and ending with a review of the Royal Shakespeare Company production in 1991. The criticism centers on three aspects of the play: the love/friendship debate.

Mathematics Education Across Time and Place Dec 10 2021 What is mathematics, and what aspects of it should be taught in schools? How and to whom should it be taught, and how should its understanding be assessed? These questions continue to drive curriculum development, school organization, teaching methods, and research agendas. No one today doubts that mathematics should be taught in our schools, but this was not always so. Mathematics Education Across Time and Place aims to help mathematics teachers, teacher educators, and anyone else interested in mathematics education appreciate the path this discipline has taken through the ages. To understand the historical and social context for schools and the place of mathematics within them, we meet a variety of mathematics educators from different times and places. Though fictional, their lives and social circumstances are based on historical documents and professional sources. They range from ancient Greece to modern Zimbabwe; from Persia to British Columbia; from Islamic Baghdad to revolutionary Paris; from Elizabethan England to twentieth-century New York; and from the rural one-room schools of North

America to the modern comprehensive secondary school. By sharing the teachers' lives, we come to understand how they developed their love for teaching mathematics, and how their work fit into the larger social context of their time.

Another Time--Another Place Mar 13 2022 How can love survive through the centuries? That is what Tina Stanton and Craig McChristian will find out. They have lived miles apart for many years, yet their friendship has continued. The two of them have had revealing dreams all of their lives, but until Tina takes a trip to New York and a happenstance meeting with Craig do they find out that each has had their own dreams that coincide with the other's. Not until after Tina's husband Jack dies in an accident do they finally get together. Craig waits patiently as Tina adjusts to her new life and having him back in it. This book captures the imagination and puts us on a plane with the past. It shows us how people can be together through more than one life. It makes you feel the love they have for each other that has spanned the ages of time.

Time and Place in Deuteronomy Jun 16 2022 The book is a literary and theological study of the themes of time and place, which aims to set the so-called 'centralization-law' of Deut 12-26 in the broad context of the book. The authors show that time and place are pervasive themes of Deuteronomy, a crucial part of its articulation of its understanding of history, religion and ethics. The heart of the thesis is that the foundational encounter between God and Israel at Horeb is paradigmatic for all subsequent encounters. For this reason, no one time or place can have final or absolute significance. The thesis thus calls into question the received view that the altar-law of Deut 12-26 is a 'centralization-law' associated with Josiah's reform. The refusal to identify the 'place' is no mere device against anachronism, but a consistent element in Deuteronomy's theology of history. The Connection between Deuteronomy and Josiah's reform has long been an important tenet of Old Testament criticism. The debate about the interpretation of Deuteronomy, however, has never been finally settled. The present study looks in a new way at the so-called 'centralization-law' of Deuteronomy which has been the most important factor in the traditional critical view of the book. It sets the law in the context of a broadly based study of the theology of the book, and comes to conclusions which call the connection with Josiah's reform into question. A broadly based study of the themes of time and place in Deuteronomy, calling into question accepted ideas about the purpose and setting of the book.

Sacred Place and Sacred Time in the Medieval Islamic Middle East Aug 18 2022 This book offers a fresh perspective on religious culture in the medieval Middle East. It investigates the ways Muslims thought about and practiced at sacred spaces and in sacred times through two detailed case studies: the shrines in honour of the head of al-Husayn (the martyred grandson of the Prophet), and the holy month of Rajab. The changing expressions of the veneration of the shrine and month are followed from the formative period of Islam until the late Mamluk period, paying attention to historical contexts and power relations. Readers will find interest in the attempt to integrate the two perspectives synchronically and diachronically, in a discussion of the relationship between the sanctification of space and time in individual and communal piety, and in the religious literature of the period.

What Time Is This Place? Jul 17 2022 A look at the human sense of time, a biological rhythm that may follow a different beat from that dictated by external, "official," "objective" timepieces. Time and Place—Timeplace—is a continuum of the mind, as fundamental as the spacetime that may be the ultimate reality of the material world. Kevin Lynch's book deals with this human sense of time, a biological rhythm that may follow a different beat from that dictated by external, "official," "objective" timepieces. The center of his interest is on how this innate sense affects the ways we view and change—or conserve, or destroy—our physical environment, especially in the cities.

Words in Time and Place Dec 30 2020 Did you know that the English language has over 150 words for the adjective 'drunk' developed over 1,000 years? Be prepared to learn words you have never heard before, find out fascinating facts behind everyday words, and be surprised at how lively and varied the English language can be. Published to critical acclaim in 2009, the Historical Thesaurus of the Oxford English Dictionary is the first comprehensive thesaurus in the world to arrange words by meaning in order of first recorded use. Using its unique perspective on how the English language has developed, *Words in Time and Place* takes 15 themes and explores the language in these areas over time - explaining when new words appeared, where they came from, and what such changes say about times in which they emerged. The themes chosen are varied, universal topics and show the semantic range of the thesaurus and what it can tell us about the words used in areas of everyday life. Learn about the different words for dying and money, or types of pop music, as well as words for a privy, oaths, and words for being drunk. Written by the world's leading expert on the

English language, David Crystal, the book carries his trademark style of engaging yet authoritative writing. Each chapter features an introduction to the language of that topic, followed by a timeline of vocabulary taken from the historical thesaurus showing all the synonyms arranged in chronological order. The timelines are annotated with additional quotations, facts, and social and historical context to give a clear sense of how words entered the English language, when, and in which context they were used. Words in Time and Place showcases the unique and excellent resource that is the Historical Thesaurus and reveals the linguistic treasures to be found within. This fascinating book will appeal to anyone with an interest in words and in the development of the English language.

Out of Time & Place Jan 11 2022 Out of Place & Time, Vol. 2, is an anthology of plays by six members of the Women's Project Lab. It's a snapshot of some of the most ambitious work incubating in New York and a diverse compilation of plays for directors and actors seeking exciting contemporary work to explore. With a hilarious and biting intro by Theresa Rebeck that challenges the American theater to celebrate and produce its women playwrights, Vol. 2 showcases writers whose voices sing our world with wit, passion and daring. Bekah Brunseter's *Le Fou* teases out the destructive dance between love and vanity. Kara Manning's *Sleeping Rough* forms a blues ballad for souls displaced between lives. Alexis Clements' *Conversation* cleverly interrogates the science of speech, while Nadia Davids' *At Her Feet* plays out another kind of linguistic music, that of six very different Muslim women from Cape Town. Carla Ching's *TBA* plays with the power of naming, and Andrea Thome's *Undone* offers a polyphonic love poem to a city crowded with the living and dead.

The Right Word in the Right Place at the Right Time Sep 07 2021 For the past twenty-five years Americans have relied on Pulitzer Prize-winning wordsmith William Safire for their weekly dose of linguistic illumination in The New York Times Magazine's column "On Language" -- one of the most popular features of the magazine and a Sunday-morning staple for innumerable fans. He is the most

widely read writer on the English language today. Safire is the guru of contemporary vocabulary, speech, language, usage and writing. Dedicated and disputatious readers itch to pick up each column and respond to the week's linguistic wisdom with a gotcha letter to the Times. *The Right Word in the Right Place at the Right Time* marks the publication of Safire's sixteenth book on language. This collection is a classic to be read, re-read, enjoyed and fought over. Fans, critics and fellow linguists wait with bated (from the French *abattre* "to beat down") breath for each new anthology -- and, like its predecessors, this one is bound to satisfy and delight. Safire finds fodder for his columns in politics and current events, as well as in science, technology, entertainment and daily life. The self-proclaimed card-carrying language maven and pop grammarian is not above tackling his own linguistic blunders as he detects language trends and tracks words, phrases and clichés to their source. Scholarly, entertaining and thoughtful, Safire's critical observations about language and slanguage are at once provocative and enlightening. Safire is America's go-to guy when it comes to language, and he has included sharp and passionately opinionated letters from readers across the English-speaking world who have been unable to resist picking up a pen to put the maven himself in his place or to offer alternate interpretations, additional examples, amusing anecdotes or just props. *The Right Word in the Right Place at the Right Time* is a fascinating, learned and piquant look at the oddities and foibles that find their way into the English language. Exposing linguistic hooey and rigamarole and filled with Safire's trademark wisdom, this book has a place on the desk or bedside table of all who share his profound love of the English language -- as well as his penchant for asking "What does that mean?" Or, "Wassat?" This new collection is sure to delight readers, writers and word lovers everywhere and spark the interest of anyone who has ever wondered, "Where did the phrase 'brazen hussy' come from?"

Striking the Mother Lode in Science Jul 25 2020 How much truth is there to the popular belief that science is a young person's game? Is America's older scientific community retarding economic growth? Using a unique data base and an interdisciplinary approach, the authors address these and other questions. They find evidence that exceptional contributions to science are more likely to be made by those under 40. Age matters, but not nearly as much for "average" scientists. Success in science also depends on RPRT--being in the "right place at the right time". Not all generations of scientists have equal access to the type of jobs that foster productivity, nor do they have the good fortune to be educated when path-breaking events are occurring in their field. Changing economic conditions in science have conspired to make those who entered science during the last 25 years less productive than their predecessors. In addition, extreme competition for jobs and grants can make scientists behave in a dysfunctional manner. The authors conclude that the absence of a national science policy can cause serious problems for the United States, and they outline a policy to boost productivity in American science. Clearly written, with many pointed examples, this work will appeal to anyone interested in science or science policy.

A Time and a Place Feb 12 2022 Barnabus's nephew is behaving oddly. Calling upon Doctor Humphrey for assistance has not been particularly helpful, because the good doctor's diagnosis of demonic possession is clearly preposterous. Even the demon currently

ensconced on the front room couch agrees it's preposterous. But then, how else to explain the portal to another world through which his nephew and Humphrey have just now disappeared? Barnabus knows their only chance of rescue is for Barnabus J. Wildebear himself to step up and go through that portal. Thus begins an existential romp across space and time, trampling on Barnabus' assumptions about causality, freewill, identity, good and evil. Can Barnabus save his nephew—and incidentally, all of humanity? Praise for *A Time and a Place*: "Mahoney skillfully... uses Barnabus's multilayered adventures to yank readers into moments of comedy, tragedy, horror, and philosophical contemplation of time, free will, and personal responsibility. ...Mahoney's work is great for those who like their speculative fiction thoughtful, eloquent, and messy." ~ Publishers Weekly "A Sci-Fi Fantasy with literary notes, there is so much to love about this book. The magic of *A Time and a Place* resides in its rich description of places we'll never see—not even in dreams—and the people who must manipulate impossible situations to save their kith and kin." ~ A.B. Funkhauser, author of *Shell Game: A Black Cat Novel* "A Time and a Place provides an entertaining frolic through the imaginary blue and yellow purple hills of someone desperately in need of therapy. And I loved it! Written in a Neil Gaimanesque style of witty prose and existential, thought-provoking dilemmas, it will captivate you, entertain you, and keep you out of mischief until it's time for tea. Excellent stuff . . . and highly recommended." ~ Andrew Weston, author of the internationally bestselling IX Series "An intricate plot laced with Mahoney humour and excellent writing makes this a must read for all lovers of good books." ~ Brian Wyvill, Author of *The Second Gate* "It's a great book." ~ Matt Watts, Comedian, Actor, Writer (Michael: Tuesdays and Thursdays, CBC Television)
