*A true account of a woman's cherished career in forestry is graphically recalled from journals, photos and original artwork. The memoir is an account of her day-to-day log scaling duties. Her fundamental beliefs that companies would protect and care for employees were shattered following a violent assault. Afflicted with posttraumatic stress disorder, she shares the consequences of being a victim of workplace violence and ill treatment. Despite Health and Safety Regulations, injustices by employers are tragically commonplace. Her experiences show the stark reality behind a façade of safety policies. Marquise Cubey, veteran cosplayer and professional costume designer shares little-known painting, dyeing, and weathering techniques you can apply to fabric to get exactly the look you want, every time! "Painting professional for over 25 years and owner of a Valdosta-based painting business, Rudy Reid has been described by clients as having a magic touch. In this incisive book, he discusses his craft, the science and principles behind it. Reid also includes a list of helpful painting hints, insights, tools and equipment. From cost estimation to product considerations to priming to the painting itself, this book will prove to be an indispensable guide for anyone who wants to learn and enjoy Everyday Real World Painting!"*
