Allemaal andersdenkenden is een van de invloedrijkste boeken van de afgelopen decennia. Het is een standaardwerk voor wie denkt over en werkt met cultuurverschillen: overheid en bedrijven, NGO's, studenten, reizigers en krantenlezers. Dit is de jongste, opnieuw herziene editie van Geert Hofstede's baanbrekende studie naar de manier waarop wij in ons denken, voelen en handelen beïnvloed worden door de cultuur waarin we zijn opgegroeid. De 'dimensies van Hofstede' hebben blijvend bijgedragen aan wederzijds begrip tussen mensen in bedrijven, organisaties en andere sociale systemen over de hele wereld. Van Allemaal andersdenkenden werden wereldwijd 500.000 exemplaren verkocht, in 21 talen. Fully revised, this workbook remains the best way to prepare for ABRSM's Grade 1 Theory of Music Exam. "Model answers for practice papers for ABRSM's Grade 6 Theory exams."--Publisher's description. This book is part of an unrivalled series that is designed specifically for students of 'popular' music. Improve your musicianship and gain a qualification. Studying this series will enable you to gain internationally recognized qualifications that are equivalent in stature to those available in the classical music education field. As well as helping you to pass the London College of Music grade examinations in popular music theory, the series will help you improve your musicianship (whether or not you intend to take an examination). All topics are covered in a way that is directly relevant to the music you play, with the focus very much upon how to apply the oretical knowledge in a practical music making context. Regardless of which instrument you play and which ever style of popular music you like, if you have any interest in learning about the musical foundations of popular music - then this series is for you! Learn More About RGT. Grade Seven Music Theory for ABRSM Candidates A complete course for students taking the ABRSM Grade 7 music theory exam. This book takes you through each topic with a step-by-step approach. The topic in each unit is explained in simple terms with several musical examples, and is then followed by a page of consolidation exercises so that you can immediately practice your new-found knowledge. Model answers are provided. The course covers the ABRSM syllabus for Grade Seven, which is a pre-advanced level. The course is broken down into four sections, which mirror the way the exam paper is organised - figured bass, harmonic reconstruction, composition and score-based analysis questions. In the figured bass section, you will build on the basic figured bass knowledge you gained at grade 6. You will extend your "harmonic vocabulary" to include chords with an added 7th (e.g. V7 or II7), with an added 9th (e.g. V9) and also learn about how dissonant suspensions are handled in figured bass four-part harmony, and how modulation works in figured bass. This section will also teach you specifically how to answer question 1 in the ABRSM grade 7 exam paper, which asks you to supply the figured bass to a given bass and melody line. In the harmonic reconstruction question, you are asked to expand a given "skeleton framework" into a musical-sounding keyboard piece (in 4-part harmony) by adding recognised melodic decoration in an appropriate way. You will learn about the various types of non-chord notes, such as passing notes, appoggiaturas (accented passing notes), auxiliary notes, suspensions, anticipations and retardations. You will also learn how a melody can be decorated with additional chord notes, such as harmonic auxiliary notes. This section teaches you a step-by-step method for tackling question 2 in the grade 7 exam. The third section in the course covers composition. At grade 7, you may be asked to compose a melody line which fits a given piano accompaniment - you'll learn how to fit a melody on top of another one. An alternative question is to compose a melody to a given chord progression, so this section will also teach you how to tackle this second type of question, and how to achieve top marks, whichever question you choose. Last but not least (because it's worth 50% of the whole exam!) we cover the score analysis question. You will learn a wide range of interpretive skills, including transposition into or out of concert pitch, harmonic analysis, notation knowledge, awareness of stylistic eras and much more. Perfect for self-study, or to use with your music teacher. Ample musical illustrations and exercises are included, with model answers provided. Each page has been carefully designed to be suitable for photocopying. This book is "bilingual", and contains both UK and USA musical terminology. Grade Six Music Theory for ABRSM Candidates A complete course for students taking the ABRSM Grade 6 music theory exam. This book takes you through each topic with a step-by-step approach. The topic in each unit is explained in simple terms with several musical examples, and is then followed by a page of consolidation exercises so that you can immediately practice your new-found knowledge. Model answers are provided. The course covers the ABRSM syllabus for Grade Six, which is a high intermediate level. The course is broken down into three sections, which mirror the way the exam paper is organised - harmony, composition and score-based analysis questions. In the harmony section, you will learn how chords are constructed, about their inversions and the way they are commonly put into progressions and cadences. You will learn how to harmonise a simple melody, by choosing chords that both sound good, and also agree with the "rules" of harmony set down in the classical era. Also in this section, you will learn how to read "figured bass", which is a short-hand system for notating chords. You will be able to produce a piece of 4-part harmony from a single figured bass line, and also learn how to create a figured bass line which will fit a given melody. You will learn how the figured bass system works, how to answer the exam questions, with plenty of tips to help you remember as you go along. In the composition section of the course, you will find out exactly what the examiner is expecting of you, in order to gain top marks for your composition. You will learn how to structure a melody, how to use the ideas from the provided given opening to create the rest of the piece, and how to write performance directions which are meaningful and musical. You will also learn about changing key (modulation) and the most effective way to do this. The last section of the course is general knowledge - you will learn how to answer a range of questions based on a score for either an chamber work, or an orchestral piece. You'll learn about how ensemble scores are organised, which instruments transpose and how, as well as a myriad of other skills such as intervals, writing out ornaments, or analysing harmony. Perfect for self-study, or to use with your music teacher. Ample musical illustrations and exercises are included, with model answers provided. Each page has been carefully designed to be suitable for photocopying. This book is "bilingual", and contains both UK and USA musical terminology.
