**Fokker G-1** Feb 25 2023 Het complete verhaal over de Fokker G-1 in twee delen. In dit deel wordt de operationele geschiedenis besproken. In 1935 werd duidelijk dat de Nederlandse Luchtvaart-afdeling (LVA) nodig gemoderniseerd moest worden. Nieuwe plannen behelsden onder andere twee vliegtuigafdelingen met jachtkruisers met een aanzienlijk vliegbereik voor patrouilletaken. De Fokker G-1 werd beschouwd als het ideale type voor deze taak en 36 toestellen werden besteld. Ze werden in 1939 geleverd. Op 1 september 1939 werd de 4e JaVA op Bergen opgericht en als eerste uitgerust met G-1's. Deze patrouilleerde boven het noorden van het land en onderschepte heel wat buitenlandse (Duitse) vliegtuigen. Na het november-alarm werd de 3e JaVA, uitgerust met de G-1, gestationeerd op Waalhaven bij Rotterdam en patrouilleerde boven het zuiden van het land. In 1939 werden 26 voor Spanje bedoelde G-1 Wasp's door Nederland overgenomen. Begin 1940 werden de eerste zes ongewapend afgeleverd, zodat de vliegers van V-2 LvR, de Jachtgroep Veldleger, er alvast mee konden oefenen. Intussen werkte Fokker hard aan de ombouw van de G-1 Wasp voor de ML, die op 1 juni operationeel zou worden. In mei 1940 was al een deel bewapend. Tijdens de Duitse aanval slaagden acht G-1's er in te starten vanaf Waalhaven. Zij schoten vijftien vijandelijke vliegtuigen neer, maar tenslotte kon slechts één G-1 opnieuw ingezet worden. De G-1's van de 4e JaVA stonden opgesteld op het platform toen ze werden verrast door een Duitse aanval vanuit zee en slechts één kon opstijgen. Bij een latere aanval werd een aantal G-1's op het platform uitgeschakeld. De overige toestellen werden buiten het veld gebracht en zo mogelijk gerepareerd. De volgende dagen werden de G-1's ingezet voor verkenning, escorte of grondaanvallen. Na de capitulatie werden op Schiphol alle G-1 Mercury's en D.21's in brand gestoken. De Duitsers maakten diverse toestellen buit. De Mercury's werden eerst gerepareerd. De resterende G-1 Wasp's werden overgenomen door de Luftwaffe en tot begin 1943 gebruikt bij vliescholen. Één buitgemaakte G-1 Wasp wist naar Engeland te ontsnappen. Op 5 mei 1941 slaagden invlieger T.H. Leegstra en ir. P.J.C. Vos er in om een laatste vlucht van Schiphol te maken. Het toestel was volgetankt. Eenmaal in de lucht vlogen ze weg van een begeleidende G-1, gevlogen door invlieger Emil Meinecke, en koersten naar het westen. Aangekomen boven Engeland landden ze zo snel mogelijk om niet neergeschoten te worden door achtervolgende Hurricanes. De kist werd later overgevlogen naar Miles, waar de houten vleugel werd getest. Het vliegtuig stond daar nog na de oorlog. Niemand was nog geïnteresseerd...

**Structured Stochastic Matrices of M/G/1 Type and Their Applications** Jan 24 2023 This book deals with Markov chains and Markov renewal processes (M/G/1 type). It discusses numerical difficulties which are apparently inherent in the classical analysis of a variety of stochastic models by methods of complex analysis.

**Zero-G: Book 1** Aug 19 2022 In this heart-pounding science fiction adventure from William Shatner, debonaire, eighty-year-old director Samuel Lord and the “Zero-G” men are in charge of investigating terrorism, crime, corruption, and espionage aboard the space station Empyrean—and stopping the Chinese from accidentally destroying the Earth. In the year 2050, the United States sends the FBI to govern its space station, The Empyrean. Under the command of suave, eighty-year-old director Samuel Lord, the “Zero-G” men are in charge of investigating terrorism, crime, corruption, and espionage and of keeping an eye on the rival Chinese and Russian stations. NASA is conducting a top-secret project in the agricultural center of the US space station Empyrean, using microscopic robots called nanites to construct a vine that can survive in space. The plan is to grow structural material for an elevator that will reach from the Empyrean and Earth. Unfortunately, a Russian spy inadvertently causes the growth to rage out of control, not only threatening the Empyrean, but the Russian space station Red Giant. Under the guidance of Director Samuel Lord, Zero-G must identify the spy, help find a way to reverse the fast-replicating vine, and manage a form of “space zombie” birthed by the nanites. The surprising solution takes Lord and a Russian pilot on a dangerous mission to Venus—where a shocking discovery awaits. “A tightly paced blend of police procedural, military science fiction, and space opera, set in an intriguing near-future world” (Publishers Weekly), Zero-G is an exciting installment from a master of the craft.
