East Africa is rapidly becoming one of the most popular areas in the world among the increasing numbers of travellers who are prepared to venture outside their own continent. To those of us fortunate enough to live here, the reasons for this popularity are quite apparent. Much of the region enjoys an equable climate all the year round with no extremes of either heat or cold and with plenty of sunshine. Scenically the area is one of the most beautiful on earth with a marvellous variety of landscape. The beaches are vast and clean and unspoilt. But the outstanding attractions of East Africa, for most people, are its fascinating peoples and the unparalleled abundance of its

wild life. This guide is the first of three planned to cover the whole region of East Africa. It deals with Kenya and Northern Tanzania. The other guides will deal with Uganda and the rest of Tanzania. Many books have been written about East Africa. They come into four main categories; the magnificent picture books, the geography books, the stories about animals and the detailed technical books on such special aspects as game conservation, bird life, prehistory, or butterflies. None of these is suitable as a practical guide for either the local resident or the average intelligent visitor, who is interested in everything but is not an enthusiastic specialist in any particular subject.

Stand Up Paddleboarding is the fastest growing watersport worldwide. The comparatively low cost, the convenience of inflatable boards and the fact that you can just get on and go all add up to its appeal. But, as with everything, a little bit of knowledge and technique makes the experience so much more enjoyable! That is where this book - the first UK how-to book on paddleboarding - comes in. It provides a perfect introduction to the sport: how to paddleboard, what kit to use and where to go. The book guides you through launching, the correct stance, paddling in a straight line, the different types of turns and landing. It shows you how to choose your board and paddle, inflate and deflate an inflatable board, and talks about where to ride as well as weather, safety, maintenance and repair of your equipment. It covers the main types of paddleboarding: touring, racing, surfing and yoga / fitness. All aspects are heavily illustrated with colour photographs making it easy to understand and clear to follow.
