Science Essentials Solar System helps explain our solar system and the space beyond to aspiring astronomers. At the same time, the book reinforces cross-curricula skills in science and reading. Young learners will read lively passages about space, strengthen reading, vocabulary, and language arts skills, and play games that reinforce learning. Cutout fact cards, a solar system poster, and stickers are included. Appealing illustrations, easy-to-understand directions, and varied creative activities make learning about the solar system fun and easy. Science Essentials Solar System is the most complete book that offers: *Passages about black holes *Cutout fact cards and games *Vivid, full-color illustrations to spark the learner's interest *An answer key to measure student performance Get your students excited about the wonders of our Solar System with this easy-to-use reference guide. Elementary Astronomy makes complex ideas simple and is a terrific resource for teachers, parents, or anyone without a strong background in astronomy. And it meets the NSES standards for Space Science for all grades. User-friendly instructions and simple illustrations make this a teaching tool that is out of this world! A top-selling teacher resource line, The 100+ Series(TM) features over 100 reproducible activities in each book! Organized by specific reading skills, this book is designed to enhance students' reading comprehension. Lively reading passages present high- Summer Bridge Explorations prepares your third-grade graduate for fourth grade through progressive lessons and project-based learning. This dynamic workbook strengthens cross-curricular skills with a focus on arithmetic, grammar, and comprehension. Summer Bridge Explorations makes learning last. With this dynamic series, students entering grades 1 to 4 prepare for the new year through project-based learning. Grade-level workbooks are divided into three progressive sections, one for each month of summer, and each of these sections is built around a theme-based activity that connects real-world learning with summer fun. Your child will keep learning alive by applying new skills in fun ways, all while enjoying everything summer has to offer. Lessons and activities span the curriculum, supporting growth in math, reading, writing, social studies, science, and the arts. Reading Comprehension and Skills for third grade is designed to help students develop a strong foundation of reading basics so that they will become competent readers who can advance to more challenging texts. It includes engaging passages and stories about a variety of subjects to appeal to al readers. The book also encourages vocabulary development and reinforces reading comprehension through leveled activity pages that target each student's individual needs for support. Kelley Wingate 's Reading Comprehension and Skills series is the perfect choice for both teachers and parents. This valuable reading and comprehension skills practice book provides nearly 100 reproducible pages of exciting activities, 96 durable flash cards, and a motivating award certificate. The differentiated activity pages give students the practice they need at a level that is perfect to help them master basic reading comprehension skills necessary to succeed and are great for use at both school and home. Help students in grades 6-9 master the skills necessary to succeed in algebra using Algebra. This 128-page book allows for differentiated instruction so that each student can learn at his or her own pace. It is perfect for extra practice at home or school and includes more than 100 pages of exciting activities! The activities cover skills such as operations with real numbers, variables and equations, factoring, rational expressions, ratios and proportions, graphing, and radicals. The book includes 96 durable flash cards and an award certificate. Earth Science for grades 5 to 8 is designed to aid in the review and practice of earth science topics. Earth Science covers topics such as Earth, the moon, the solar system, rocks and minerals, landforms, and weather patterns. The book includes realistic diagrams and engaging activities to support practice in all areas of earth science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards. Life Science for grades 5 to 8 is designed to aid in the review and practice of life science topics. Life Science covers topics such as classifying animals, plant and animal structures, life cycles, biomes, and energy transfer. The book includes realistic diagrams and engaging activities to support practice in all areas of life science. --The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and Earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards. Biology for grades 6 to 12 is designed to aid in the review and practice of biology topics such as matter and atoms, cells, classifying animals, genetics, plant and animal structures, human body systems, and ecological relationships. The book includes realistic diagrams and engaging activities to support practice in all areas of biology. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards. Reading Comprehension for grade 4 is designed to aid in the review and practice of reading comprehension skills. Grade 4 covers standards such as main topic and key details, identifying an author's purpose, summarizing, inferring, and vocabulary practice. The book includes engaging nonfiction and fiction passages and stories to appeal to all readers. --The 100+ Series Reading Comprehension books span grades 1 to 8. The activities in each book reinforce essential reading comprehension skills by providing practice with sequencing, main idea, predicting, and inferring, as well as story elements, character, plot, and setting. The books include engaging grade-appropriate fiction and nonfiction passages and stories. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in reading comprehension. The series is correlated and aligned to the Common Core State Standards. Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze! Differentiated Reading for Comprehension is designed to provide high-interest, nonfiction reading success for all readers. This 64-page book focuses on fifth grade reading skills defined by the Common Core State Standards. Each of 15 stories is presented separately for the below-level, on-level, and advanced students, followed by a series of comprehension questions. Grade five covers such standards as quoting a text to explain an answer or draw inferences, identifying and explaining an author's reasons and evidence, and analyzing the structure of a text. --This series allows teachers to present the same content to below-level, on-level, and advanced students with leveled nonfiction stories. It includes multiple-choice, fill-in-the-blank, and true/false questions; short-answer writing practice; and comprehension questions. Students stay interested, build confidence, and discover that reading can be fun! The reading passages are separated into sections with titles such as Extreme Places, Amazing People, Wild Animals, Strange and Unexplained, Fascinating Machines, and Amazing Kids. The Human Body for grades 5 to 8 is designed to aid in the review and practice of life science topics specific to the human body. The Human Body covers topics such as all of the body systems, genetics, and healthful living. The book includes realistic diagrams and engaging activities to support practice about all areas of the human body. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards. Kelley Wingate's Grammar for grades 3-4 is designed to help students master necessary grammar skills. Aligned to the Common Core State Standards, this book includes a comprehensive review section for each major concept. Each engaging practice page is designed to reinforce essential grammar concepts. Grammar skills covered include parts of speech, verb tenses, subject and verb agreement, and prefixes and suffixes. This well-known series, Kelley Wingate, has been updated to align content to the Common Core State Standards. The 128-page books will provide a strong foundation of basic skills and will offer differentiated practice pages to make sure all students are well prepared to succeed in today's Common Core classroom. The books will include Common Core standards matrices, cut-apart flashcard sections, and award certificates. This series is designed to engage and recognize all learners, at school or at home. Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze! "With a solid foundation of basic science knowledge and a basic understanding of concepts and vocabulary, students will be prepared for higher-order thinking and inquiry-based activities"--Back cover. Comprehensive Curriculum of Basic Skills for grade 3 covers basic concepts such as reading comprehension, parts of speech, punctuation, spelling, rounding, addition, subtraction, multiplication, division, fractions, decimals, geometry, graphs, time, money, measurement, and place value. Complete with practice in writing, reading, and math, this series helps develop the skills your child needs for grade-level success. --With over 10 million copies in print, the Comprehensive Curriculum of Basic Skills series provides an entire curriculum filled with fun, educational activities and instruction that improve academic performance. --Available for grades prekindergarten to 6, Comprehensive Curriculum of Basic Skills features vivid, full-color illustrations and grade-appropriate activities for phonics, reading, language arts, writing, and math. This series edition has been updated with relevant, high-interest reading passages and artwork to engage your child in the learning process. An excellent resource for supporting classroom learning or enhancing your home school curriculum, it features review lessons to measure your child's progress, teaching suggestions to extend learning, and answer keys to monitor accuracy. --Comprehensive Curriculum of Basic Skills is the all-in-one resource for strengthening essential skills. Engage scientists in grades 4D6 and prepare them for standardized tests using Just the Facts: Earth and Space Science. This 128-page book covers concepts including rocks and minerals, weathering, fossils, plate tectonics, earthquakes and volcanoes. Other topics include oceans, the atmosphere, weather and climate, humans and the environment, and the solar system. It includes activities that build science vocabulary and understanding, such as crosswords, word searches, graphing, creative writing, vocabulary puzzles, and analysis. An answer key and a standards matrix are also included. This book supports National Science Education Standards and aligns with state, national, and Canadian provincial standards. The Visual Guide to Third Grade uses bold infographics to present fascinating facts about rainbows, health, nutrition, the moon, hydroelectric power, aviation, and more. Infographics allow students to complete creative challenges while building math, writing, and data-collection skills. --When information is presented visually, children are more likely to understand and remember it. The Visual Guide to Third Grade uses infographics to grab young learners' attention with an exciting visual learning technique. Infographics simplify complex information by highlighting key ideas and connections with colorful charts, pictures, and graphs. The perfect at-home resource, this cross-curricular workbook provides comprehension questions, writing prompts, and creative challenges to keep your child engaged in the learning process. --Grade-specific and high-interest, the Visual Guide series offers a unique collection of infographics that teach language arts, math, social studies, and science. Your child will grow as a critical thinker; make strides toward learning independently; and improve skills with text, numbers, and data. A way of learning that appeals to today's youth, the Visual Guide series focuses on building the 21st century skills that lead to school success. Connect students in grades 5 and up with science using Understanding the Human Body. This 80-page book presents basic information about the complex human body without overwhelming students with medical jargon. It makes the study of the human body even more fascinating with Far Out Facts, fun tidbits of information that keep students on their toes. The book includes a number of Web sites that provide students the opportunity to further explore various body systems and concepts. This book supports National Science Education Standards. Reinforce reading skills for students in grade 1 with Reading Achievement. This 96-page workbook helps students build high-level thinking. Each passage uses vibrant, age-appropriate language so that students feel confident completing the reinforcement activities. The book features more than 200 questions, 70 reproducible activity pages, 4 pretests in standardized test format, a ready-to-use scoring box on each page, and answer keys. The Academic Vocabulary Practice for third grade offers teachers 128-pages of practical ways to help students master essential academic vocabulary. It is aligned with Common Core State Standards and includes word lists of more than 200 domain-specific words, reproducible practice pages, game templates, a student dictionary, and an answer key. Additionally, a full set of vocabulary flash cards is available online. The Academic Vocabulary Practice series for kindergarten through grade 5 supports literacy in the content areas of language arts, math, science, social studies, art, and technology. Each book offers systematic practice and usage of many of the academic and domain-specific words and phrases that students need to know to successfully complete work at grade level. There is also a Games and Suggestion section and game templates for small or whole group activities! The Student Dictionary pages are organized by content area and support the activity pages in each section. Build a foundation for total learning success with Everything About Animals! Designed by experts in education, Everything About Animals provides your child with essential practice in early science concepts, recognition of animals around the world, plus, fun games. High-interest lessons capture a child's attention while fun activities reinforce important basic skills. Put your child on the road to success with the Everything About's series! Interactive Notebooks: Science for grade 5 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about ecosystems, body systems, physical and chemical changes, weather, Earth's crust, natural resources, and more! --This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. --Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience. Comprehensive Curriculum of Basic Skills for grade 6 covers basic concepts such as equations, decimals, fractions, perimeter, area, volume, ratios, percents, probability, integers, graphing, writing, researching, punctuation, expanded notation, parts of speech, and reading comprehension. Complete with practice in writing, reading, and math, this series helps develop the skills your child needs for grade-level success. --With over 10 million copies in print, the Comprehensive Curriculum of Basic Skills series provides an entire curriculum filled with fun, educational activities and instruction that improve academic performance. --Available for grades prekindergarten to 6, Comprehensive Curriculum of Basic Skills features vivid, full-color illustrations and grade-appropriate activities for phonics, reading, language arts, writing, and math. This series edition has been updated with relevant, high-interest reading passages and artwork to engage your child in the learning process. An excellent resource for supporting classroom learning or enhancing your home school curriculum, it features review lessons to measure your child's progress, teaching suggestions to extend learning, and answer keys to monitor accuracy. --Comprehensive Curriculum of Basic Skills is the all-in-one resource for strengthening essential skills. The Solar System for grades 1-2 features mazes, hidden pictures, dot-to-dots with easy-to-use directions to support support independent learning. Includes fun activities that build early reading, writing, and math skills while learning about our solar system. 32 pages. Includes color images with labels and general information for eight of the body's ten systems: circulatory, digestive, respiratory, nervous, integumentary, urinary, endocrine, and reproductive. Students can keep all the facts right at their fingertips with this colorful two-sided ready reference card! Comes pre-punched for a three-ring binder and is laminated for years of use. 8 1/2" x 11" (22 x 28cm). Life Science for grades 5 to 8 is designed to aid in the review and practice of life science topics. Life Science covers topics such as classifying animals, plant and animal structures, life cycles, biomes, and energy transfer. The book includes realistic diagrams and engaging activities to support practice in all areas of life science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and Earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards. Includes color images with labels and general information for eight of the body's ten systems: circulatory, digestive, respiratory, nervous, integumentary, urinary, endocrine, and reproductive. Students can keep all the facts right at their fingertips with this colorful two-sided ready reference card! Comes pre-punched for a three-ring binder and is laminated for years of use. 8 1/2" x 11" (22 x 28cm). Illustrations of the human body systems to help children recognize and name them, with brief descriptions. Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze! The Human Body for grades 5 to 8 is designed to aid in the review and practice of life science topics specific to the human body. The Human Body covers topics such as all of the body systems, genetics, and healthful living. The book includes realistic diagrams and engaging activities to support practice about all areas of the human body. --The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards. Classroom Data Tracking for grade 5 is a 160-page customizable resource that will transform how you track data and set goals in your classroom. The book features tracking sheets that cover skills such as expressions, exponents, fractions, volume, affixes, roots, figurative language, and more. --Take charge of data tracking with a product that simplifies the process. The Classroom Data Tracking series for kindergarten to grade 5 provides the tools to successfully assess and track academic growth. These books feature reproducible pages that focus on standards-based ELA and math concepts. Each title includes crosswalks for every anchor and an example for every reproducible. With the help of this series, you'll save time while your students master important skills. Includes metric linear, square, land, volume, capacity, and weight measures. Reverse side provides conversion chart. Kelley Wingate's Algebra helps students in grades 5 and up master the skills necessary to succeed in algebra. Aligned to the Common Core State Standards, practice pages will be leveled in order to target each student's individual needs for support. The activities cover skills such as operations with real numbers, variables and equations, factoring, rational expressions, ratios and proportions, graphing, and radicals. This well-known series, Kelley Wingate, has been updated to align content to the Common Core State Standards. The 128-page books will be leveled in order to target each student's individual needs for support. The activities cover skills such as operations with real numbers, variables and equations, factoring, rational expressions, ratios and proportions, graphing, and radicals. This well-known series, Kelley Wingate, has been updated to align content to the Common Core State Standards. The 128-page books will provide a strong foundation of basic skills and will offer differentiated

practice pages to make sure all students are well prepared to succeed in today's Common Core classroom. The books will include Common Core standards matrices, cut-apart flashcard sections, and award certificates. This series is designed to engage and recognize all learners, at school or at home. Biology for grades 6 to 12 is designed to aid in the review and practice of biology topics such as matter and atoms, cells, classifying animals, genetics, plant and animal structures, human body systems, and ecological relationships. The book includes realistic diagrams and engaging activities to support practice in all areas of biology. --The 100+ Series science books span grades 5 to 12.
