FINANCIAL ACCOUNTING in Q and A Apr 10 2022 "Wisdom is not a product of schooling but of the lifelong attempt to acquire it." Albert Einstein was quoted as saying. I think the big mistake in schools is trying to teach children anything, and by using fear as the basic motivation. Fear of getting failing grades, fear of not staying with your class, etc. Interest can produce learning on a scale compared to fear as a nuclear explosion to a firecracker. This book presents a new learning style evident with today's students and addresses accounting industry changes as well. This textbook is not written as a reference text, rather it is written in another form where knowledge can be bridged and tested through questions and answers in a multiple choice format. To gain most from the text, we would advise you to read topics relevant to the multiple choices so as to be able to attempt the questions raised. The answers to the questions are provided towards the back pages of the text. The book will not in small measure assist students in preparation for their regular academic and professional exams. Accounting has evolved over the years especially in the areas of Standard setting and adoption of International Financial Reporting Standards around the globe. The book basically covers introductory parts of basic financial accounting and book keeping. It is good starting point for accounting students, accountants, corporate gurus and managers of businesses. Don't forget that: The more that you read, the more things you will know. The more that you learn, the more places you'll go.
