Vietnam: Doing Business and Investing in Vietnam Guide Volume 1 Strategic, Practical Information and Contacts Jan 29 2021 **Vietnam: Doing Business and Investing in ... Guide Volume 1 Strategic, Practical Information, Regulations, Contacts** **Artificial Intelligence and Security** Mar 11 2022 This three-volume set LNCS 13338-13340 constitutes the thoroughly refereed proceedings of the 8th International Conference on Artificial Intelligence and Security, ICAIS 2022, which was held in Qinghai, China, in July 2022. The total of 166 papers included in the 3 volumes were carefully reviewed and selected from 1124 submissions. The papers present research, development, and applications in the fields of artificial intelligence and information security *Aero Digest* Jun 14 2022 *The Aeroplane* Nov 07 2021 *Introduction to Maintenance, Repair and Overhaul of Aircraft, Engines and Components* Feb 10 2022 *Introduction to Maintenance, Repair and Overhaul of Aircraft, Engines and Components* brings together the basic aspects of a fundamentally important part of the aerospace industry, the one that supports the global technical efforts to keep passenger and cargo planes flying reliably and safely. Over time, aircraft components and structural parts are subject to environmental effects, such as corrosion and other types of material deterioration, wear and fatigue. Such parts could fail in service and affect the safe operation of the aircraft if the degradation were not detected and addressed in time. Regular planned maintenance supports the current and future value of the aircraft by minimizing the physical decline of the aircraft and engines throughout its life. *Introduction to Maintenance, Repair and Overhaul of Aircraft, Engines and Components*

was written by the industry veteran, Shevantha K. Weerasekera, an aerospace engineer with 20+ years of aircraft maintenance experience, who currently leads the engineering team of a major technical enterprise in the field.

Implementing Key Account Management Apr 19 2020 Implementing Key Account Management is a highly practical handbook that guides readers through the realities of rolling out a functional key account management programme. The book offers an integrated framework for key account management (KAM) that businesses can use to design or further develop strategic customer management programmes, enabling them to overcome the obstacles that organizations often face when rolling out their strategies. Bringing together the experiences of leading experts within this field, Implementing Key Account Management draws on two decades of research and best practice from Cranfield University School of Management, one of the foremost centres for researcher and thought leadership in KAM. Between them, the authors have designed and delivered programmes globally for clients such as Rolls-Royce, Unilever, Vodafone, The Economist and many more. Rigorously researched, well-grounded and practical, this book is - quite simply - the definitive, go-to resource for implementing key account management programmes.

WALNECK'S CLASSIC CYCLE TRADER, MAY 1995 Dec 08 2021

Functional Thinking for Value Creation Apr 12 2022 After the IPS2 conferences in Cranfield and Linköping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems (IPS2) 2011 takes place in Braunschweig, Germany. IPS2 itself is defined as “an integrated industrial product and service offering that delivers value in use”. The customers expect comprehensive solutions, which are adapted to their individual needs. IPS2 offers the possibility to stand out from competition and for long-term customer loyalty. Particularly in times of economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers. Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines. The 3rd CIRP International Conference on Industrial Product Service Systems (IPS2) 2011 serves as a platform for such collaborations and the discussion of new scientific ideas.
