Economics and the Environment Oct 04 2021 Now in its ninth edition, *Economics and the Environment* offers an accessible approach to the latest debates, concerns, standards, and legislation related to contemporary environmental issues. Featuring new and updated content throughout, this student-friendly textbook organizes its discussion around four specific questions — How much pollution is too much? Is the government up to the job? How can we do better? How can we resolve global issues? — to provide an inclusive and highly-engaging examination of environmental economics. Following a unique four-question format, the text provides an integrated pedagogy that is simpler and more useful than a “topics” approach to the subject. Students are encouraged to discuss the government’s role in environmental policy, the benefits and costs of environmental protection, methods for promoting clean technology and sustainability, global pollution and resource issues, environmental justice and ethics, and more. Throughout the text, illustrative examples and real-world case studies are complemented by end-of-chapter problems and exercises that both strengthen student comprehension and increase retention.

Urban Economics Feb 08 2022 Like the eight previous editions, this ninth edition provides a clear and concise presentation of the economic forces that: cause the development of cities; determine the spatial form of cities; cause urban economies to grow or shrink; generate urban problems such as poverty, crime, and congestion; make the market for urban housing unique; and shape the tax and spending policies of local governments. In addition to developing the basic concepts of urban economics, the book uses economic analysis to evaluate the merits of policies designed to address our most vexing urban problems.

Essentials of Economics May 11 2022 Schiller's *Essentials of Economics* is the market leader for the one-semester survey course, praised for its strong policy focus and core theme of seeking the best possible answers to the basic questions of WHAT, HOW, and FOR WHOM to produce. The 9th edition is benefitted by SmartBook, the first adaptive reading experience designed to engage students with the content in an active and dynamic way, as opposed to the passive and linear reading experience they are used to. As a result, students are more likely to master and retain important concepts in the survey course. As in previous editions, students are confronted early on with the reality that the economy doesn't always operate optimally, either at the macro or micro level, and are encouraged to examine the policy challenge of finding the appropriate mix of market reliance and government regulation that generates the best possible outcomes. In addition to the suite of resources available within Connect Economics, over 100 key topics are reinforced with interesting and innovative videos on YouTube, provided to help non-majors see the relevance of economics. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
