for example argues that tactical urbanism has become an apparatus that has captured urban interventionist moments and subsumed them. Downloaded by 154.16.44.190 at 05:32 07 Feb 2017. Tactical urbanism is a way of thinking and doing that has been around for a very long time. Early examples can be found at Seaside where temporary buildings, markets, and public spaces were used to drive interest and vitality. It is an opportunity for people to engage in change-making that is critical to the success of our longer-term project. The best tactic is generally to blow a hole in the side of a building and lob grenades and clear the house using even more grenades and then blow a hole into the next house. This keeps you from ever having to go out into the street, which is an extremely deadly kill zone where you can be easily sniped or they can get the drop on you. Urban guerrillas have often employed significant unconventional tactics in order to surprise and deceive enemy forces. Some of these tactics tread a thin line between legal and illegal actions when applied against US national and international laws. An example is the use of civilian noncombatants for deception operations. The urban tactics camp is run at our private 400-acre ranch in San Antonio, NM. On the property, we have multiple live-fire ranges, a six-room shoot house, a quarter-mile obstacle course, a run and gun course, 5 to 1000-yard ranges, combat pits, and plenty of
