electromagnet reverses the 1 direction of the magnetic field reverses 2 direction of the magnetic field remains unchanged 3 magnetic field expands 4 magnetic field collapses correct web 3 okt 2020 you can refer to ncert solutions for class 6 science chapter 13 fun with magnets to revise the concepts in the syllabus effectively and improve your chances of securing high marks in your board exams fun with magnets class 6 mcqs questions with answers choose the correct option in the following questions web 28 jun 2021 magnetism and matter class 12 mcqs questions with answers question 1 the unit of pole strength is a am 1 b am c am 2 d am² answer question 2 the angle of dip at a place where the horizontal component of earth s magnetic field equals the vertical component is a 45 b 0 c 90 d 30 answer question 3 web 6 mrt 2017 magnetism may seem mysterious but you can master the concepts from here you may wish to review how magnets work get hands on experience with magnets by making and playing with magnetic slime are you ready for another quiz see whether you can distinguish between science facts and science fiction web question 9 a determine the total current in the circuit b determine the voltage drop across each resistor c calculate the power dissipated by each resistor d explain what would happen if a wire was connected between points a and b on the circuit hint calculate the potential at points a and b web solve these magnetism questions and sharpen your practice problem solving skills we have quizzes covering each and every topic of electrostatics and magnetism and other concepts of physics we have carefully curated multiple quizzes with varying difficulty levels for a well rounded practice session 46 attempts made on this topic web magnetism magnetism is a force that causes objects to attract or repel each other an object s magnetic force is how strong that attraction is magnetic fields are the areas where the magnetic force will work magnets also have opposite poles negative and positive remember opposites attract web b magnetic material offers more opposition to the field than a non magnetic material c magnetic material offers less opposition to the field than a non magnetic material d magnetic line of force cannot pass through a magnetic material 4 two magnetic fields acting in the same direction will a web magnetic resonance imaging mri has become an important diagnostic tool in the field of medicine and the use of magnetism to explore brain activity is a subject of contemporary research and development the list of applications also includes computer hard drives tape recording detection of inhaled asbestos and levitation of high speed trains web 29 nov 2022 magnetism is a form of natural phenomena that are interfered with by magnetic fields it is one aspect of the combined sensation of electromagnetism take this quiz to test your knowledge and understand the basic concepts questions 8 attempts 151 last
