Differentiate math instruction using Guided Math Made Easy for grade 3. This 96-page book includes large-group lessons that are paired with smaller, individualized mini-lessons at three levels of difficulty. The lessons support NCTM standards, which allows for easy integration into an existing math curriculum. The book includes reproducibles and aligns with state, national, and Canadian provincial standards. This work takes the major themes of systematic theology and places them in an easy to understand format. This is an introductory work for those beginning to study this subject, and deals with systematic theology in bite-size portions, or theological sound-bites. The Word of God was given to the Church of Jesus Christ to disclose God's character, will, acts and plans. In the Word of God is found a host of different subjects that, when compiled, gives the reader the ability to know what God says on those subjects which are revealed in and through the holy Scriptures. Subjects covered in this work range from the science of theology, to the doctrines of Scripture, of God, of man, of salvation, covenant theology, the person and work of Jesus Christ, the benefits of redemption, the Law of God and even eschatology, including the doctrines of heaven and hell. This is a perfect primer for the new student of theology, or a refresher for those who want to study the marrow of systematic theology without needing to wade through other volumes which span thousands of pages.
