Information shapes urban spaces in ways that most people rarely stop to consider. From data-driven planning to grassroots activism to influencing the routes we walk, bike, and drive, new information technologies are helping city dwellers to leverage information in new ways. These technologies shape the uses and character of urban spaces. Information technologies and tools such as social media and GIS tracking applications are being used by individuals as they go about their daily lives, not as alternatives to social interaction, but as opportunities to participate in the shared experience of urban life. This edited volume focuses on the creative application and management of information technologies in urban environments, with an emphasis on the intersection between citizen participation in creating city environments and the policy-making that supports it. The chapters address critical issues including the digital divide, transportation planning, use of public spaces, community building, and local events. This book was originally published as a special issue of the *Journal of Urban Technology*. This book provides practical information on how to use various psychotropic drugs in clinical practice, focusing on their mechanisms of action on receptors and enzymes in the brain. Divided into 11 chapters, it covers all main drug classes, with a dedicated chapter each on special populations and upcoming drugs. All the drugs discussed are presented in the same design format in order to facilitate rapid access to information. Specifically, each drug is individually divided into sections - its history and introduction, classification, pharmacological action, doses, drug interactions, indications, side effects and special populations. Only the essential facts about each drug have been included, so as to make the content concise and to avoid dilution

of important information. To aid with review, key points are summarized at the end of each chapter. Shows how to use Publisher 2010 to create professional publications for the web and for print.
