The insights and wisdom of the late, great boat designer and builder Renowned as one of the last and best of the old-time boatbuilders, Captain R. D. "Pete" Culler provided a guiding

light for the wooden boat revival in the 1970s. His designs are classic melds of elegance and utility; his workmanship was akin to artistry; and his teaching and writing a blend of clarity, good sense, insight, and humor. This book brings together the complete texts of Culler's classic works Boats, Oars, and Rowing and Skiffs & Schooners, along with articles from The Mariner's Catalogs and a selection of his timeless boat designs. This is the 15th annual edition of the Bibliography of Nautical Books, a reference guide to over 14,000 nautical publications. It deals specifically with the year 2000. The true story behind the events depicted in Steven Spielberg's blockbuster Bridge of Spies On 10 February 1962, Gary Powers, the American pilot whose U2 spy plane was shot down in Soviet airspace, was released by his captors in exchange for one Colonel Rudolf Abel, aka Vilyam Fisher - one of the most extraordinary characters in the history of the Cold War. Born plain William Fisher at 140 Clara Street, Newcastle upon Tyne, this bona fide British grammar schoolboy was the child of revolutionary parents who had fled tsarist oppression in Russia. Retracing their steps, their son returned to his spiritual homeland, the newly formed Soviet Union, aged just eighteen. Willie became Vilyam and, narrowly escaping Stalin's purges, embarked on a mission to New York, where he ran the network that stole America's atomic secrets. In 1957, Willie's luck ran out and he was arrested and sentenced to thirty years in prison. Five years later, the USSR's regard for his talents was proven when they insisted on swapping him for the stricken Powers. Tracing Willie's tale from the most unlikely of beginnings in Newcastle, to Moscow, the streets of New York and back again, Abelis a singular and absorbing true story of Cold War espionage to rival anything in fiction. The schooner Integrity was built in a famous boatyard in the 1960's in Massachusetts, and she was the dream boat of her owner, Waldo Howland. She cruised in the West Indies and crossed the Atlantic to visit Ireland and England. Then she was sold, and there began a chain of events which led to adventure, chicanery and eventually tragedy. This is her chance at revenge. Something as trivial as overthrowing a government won't stop her. Sela Tyron's discovery of a secret Ironvale Guild weapon project masterminded by the power-hungry Chancellor Okane has exposed harsh truths: The Poisoncry acolyte, Fisk, is still alive and her partner, Jon Veradin, is the reason why. Where Sela sees an opportunity for revenge, Jon has different plans. Tapped as the successor to the Ironvale Guild Master, he needs Sela's help to thwart Okane from assuming control. If they don't stop Okane, the Reaches will suffer. But can Sela forgive Jon and set aside her quest for revenge? Meanwhile, the sentient Resurrection ship, Vo, has transformed the paradise of Narasmina into a hellish landscape. Desperate to rescue her daughter, Erelah Veradin and the officious Ironvale diplomat, Saito Koide, struggle to

cross a ruined city filled with strange biomechanoid creations. Just as things seem their darkest, old allies, Rachel Northway and Maeve arrive to lend a hand. Together, will they be enough to defeat Vo and rescue Erelah's family? *Allies and Enemies: Empire*, the fifth book in the series, picks up right after the events of *Allies and Enemies: Legacy* in this space opera adventure with a heavy military sci-fi influence. First published in 1982 to international acclaim, the *Dictionary of Newfoundland English* introduced the world to an incredibly rich dialect with deep roots in Ireland and the English West Country. A revelatory exploration of Winslow Homer's engagement with photography, shedding new light on his celebrated paintings and works on paper. One of the greatest American painters of the 19th century, Winslow Homer (1836-1910) also maintained a deep engagement with photography throughout his career. Focusing on the important, yet often-overlooked, role that photography played in Homer's art, this volume exposes Homer's own experiments with the camera (he first bought one in 1882). It also explores how the medium of photography and the larger visual economy influenced his work as a painter, watercolorist, and printmaker at a moment when new print technologies inundated the public with images. Frank Goodyear and Dana Byrd demonstrate that photography offered Homer new ways of seeing and representing the world, from his early commercial engravings sourced from contemporary photographs to the complex relationship between his late-career paintings of life in the Bahamas, Florida, and Cuba and the emergent trend of tourist photography. The authors argue that Homer's understanding of the camera's ability to create an image that is simultaneously accurate and capable of deception was vitally important to his artistic practice in all media. Richly illustrated and full of exciting new discoveries, *Winslow Homer and the Camera* is a long-overdue examination

of the ways in which photography shaped the vision of one of America's most original painters. What do you do when the monsters are real? Legend spoke of people unafraid of pain; the ones gloried in war and death. Indiscriminate killers, they fought past the point when most men would be dead. Unstoppable, they terrorized the lands until at last they were wiped out in the Great Wars. Or so the world wished to believe. On the cusp of transition, Ondar braces for a return to the horrors of the past, even as new heroes emerge to protect the most innocent among them. What do you do when the monsters are real? You fight. Well-known as the editor of the best-selling annual *Mariner's Book of Days*, Peter Spectre lives in Spruce Head, Maine. From early colonial encounters to the ecological disasters of the twenty-first century, the performativity of contact has been a crucial element in the political significance of the beach. Conceptualising the beach as a creative trope and as a socio-cultural site, as well as an aesthetically productive topography, this collection examines its multiplicity of meanings and functions as a natural environment engendering both desire and fear in the human imagination from the Victorian period to the present. The contributors examine literature, film, and art, in addition to moments of encounter and environmental crisis, to highlight the beach as a social space inspiring particular codes of behaviour and specific discourses, as a geographical frontier between land and water, as an historical site of contact and conflict, and as a vacationscape promising regeneration and withdrawal from everyday life. The diversity of the beach is reflected in the geographical range, with essays on locales and texts from Britain, Ireland, the Caribbean, South Africa, the United States, Polynesia, and New Zealand. Focusing on the changed function of the beach as a result of processes of industrialisation and the rise of a modern leisure and health culture, this interdisciplinary

volume theorises the beach as a demarcator of the precarious boundary between land and the sea, as well as between nature and culture. A boy goes on the run in this fast-paced fantasy debut. Can a zero become a hero? *Testing Day* is supposed to be a day of celebration for Al Pilgrommor. Born into a wealthy family, he expects to follow in his successful father's footsteps. Of course, that all depends on the rank number Al receives at the testing. The higher the rank he has tattooed onto his neck, the better his life will be. To his surprise and horror, Al is revealed to be rank zero, the lowest of the low. He's now not only an outcast - he's also a danger to his entire family. So Al goes on the run, fleeing the brutal Cullers, men who hunt down zeroes . . . and put them to death. Cast out of his home, cut off from his friends, and armed with only a sword and his wits, Al is reduced to just surviving. As he meets other outcasts, however, he begins to suspect that he is a pawn in a larger game - and that he might have the power to tip the scales in a high-stakes struggle between man and dragon.
