Excerpt from *On the Management of a Parliamentary Election: A Practical Guide, With All the Necessary Forms, Instructions, Notices, Circulars, Etc., Required in the Formation of Committees, and in the Canvass, Nomination, and Election* The object of the writer of this little book is to place in the hands of persons unacquainted with the modus operandi of an election a general plan of the work to be done preliminary to and at an election, with such details as will enable such general plan to be carried out without difficulty. It is hoped that the work may also be found useful to more experienced electioneers, who will be able to add to or modify its recommendations, to suit their own plans of procedure. It may be stated here that the instructions, forms, &c., contained in the book, are in the main such as have been frequently used in both borough and county elections, and everywhere with the best results. They have

also been seen and approved of by some of the leading election agents in England. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
