In de verhalen in Ten oosten van het westen schrijft Miroslav Penkov over de tumultueuze politieke en religieuze geschiedenis van zijn geboorteland Bulgarije. Zijn personages rouwen om een vervolgen verleden en verlangen naar een toekomst die nooit zal komen. Penkovs verhalen zijn, ondanks de gewichtige thema's, lichtvoetig en ontroerend. Ten oosten van het westen is de indrukwekkende aankondiging van een groot literair talent

De rattenlijn Dec 17 2022 De zoektocht naar de waarheid achter de vlucht en mysterieuze dood van een nazi-officier 'Het resultaat is een rijkgeschakeerd verhaal met personages die volop tot de verbeelding spreken. De Rattenlijn is een geschiedenisboek, liefdesverhaal en 'spionageroman' in één.' ***** NRC Handelsblad Otto Wächter was tijdens de Tweede Wereldoorlog verantwoordelijk voor de dood van honderdduizenden Joden en Polen. Vijfenzeventig jaar later is zijn zoon Horst nog altijd overtuigd van zijn onschuld. Aan het einde van de oorlog werd Otto Wächter beschuldigd van massamoord. Achternagezeten door de Sovjets, de Amerikanen en de Britten sloeg hij op de vlucht. Drie jaar lang verschool hij zich in de Oostenrijkse Alpen, waarna hij zich naar Rome begaf en met steun van het Vaticaan kon onderduiken. Toen hij zich in juli 1949 voorbereidde op zijn reis naar Argentinië via de 'rattenlijn' overleed hij plotseling – onder zeer verdachte omstandigheden. In De rattenlijn schetst Philippe Sands een uniek maar onthutsend portret van het leven van een nazi-vluchteling, dat leest als een echte thriller. Samen met zoon Horst begint hij een confronterende zoektocht naar de ware identiteit van Otto Wächter. Aan de hand van historische bronnen, Wächters brieven aan zijn vrouw en moderne medische expertise ontrafelt Sands het mysterie dat de jongste zoon van de gevluchte oorlogsmisdadiger nog altijd achtervolgt – wat gebeurde er tijdens Wächters vlucht poging en hoe vond hij zijn einde? 'Een meeslepend avontuur, een verbijsterende ontdekkingsreis en een angstaanjagend en actueel portret van het kwaad in al zijn complexiteit, banaliteit, zelfrechtvaardiging en krankzinnigheid. Een verbluffend wapenfeit.' – Stephen Fry 'Meesterlijk geschreven ... Dagboeken, gecodeerde brieven en geheime documenten zijn hier in elkaar gewikkeld en worden door een meester brein ontleed. [...] Dat hij erin geslaagd is als een tovenaer deze chaos een schijn van helderheid te geven is een grote prestatie, ook al omdat goed en kwaad zo strikt beschreven zijn.' – Cees Nooteboom, De Groene Amsterdammer 'Een nauwgezette en uitmuntend geschreven op feiten gebaseerde thriller, die qua diepgang en tempo doet denken aan John le Carré.' – The Guardian 'Hypnotiserend, schokkend en onmogelijk om weg te leggen.' – John le Carré

Strange Stones Jul 12 2022 Full of unforgettable figures and an unrelenting spirit of adventure, Strange Stones is a far-ranging, thought-provoking collection of Peter Hessler's best reportage—a dazzling display of the powerful storytelling, shrewd cultural insight, and warm sense of humor that are the trademarks of his work. Over the last decade, as a staff writer for The New Yorker and the author of three books, Peter Hessler has lived in Asia and the United States, writing as both native and knowledgeable outsider in these two very different regions. This unusual perspective distinguishes Strange Stones, which showcases Hessler's unmatched range as a storyteller. "Wild Flavor" invites readers along on a taste test between two rat restaurants in South China. One story profiles Yao Ming, basketball star and China's most beloved export, another David Spindler, an obsessive and passionate historian of the Great Wall. In "Dr. Don," Hessler writes movingly about a small-town pharmacist and his relationship with the people he serves. While Hessler's subjects and locations vary, subtle but deeply important thematic links bind these pieces—the strength of local traditions, the surprising overlap between apparently opposing cultures, and the powerful lessons drawn from individuals who straddle different worlds.

Asian Diaspora and East-West Modernity Jun 11 2022 In this book, Asian Diaspora and East-West Modernity, Sheng-mei Ma analyzes Asian, Asian diaspora, and Orientalist discourse and probes into the conjoinedness of West and East and modernity's illusions. Drawing from Anglo-American, Asian American, and Asian literature, as well as J-horror and manga, Chinese cinema, the internet, and the Korean Wave, Ma's analyses render fluid the two hemispheres of the globe, the twin states of being and nonbeing, and things of value and nonentity. Suspended on the stylistic tightrope between research and poetry, critical analysis and intuition, Asian Diaspora restores affect and heart to diaspora in between East and West, at-homeness and exilic attrition. Diaspora, by definition, stems as much from socioeconomic and collective displacement as it points to emotional reaction. This book thus challenges the fossilized conceptualizations in area studies, ontology, and modernism.

The East, the West, and Sex Nov 16 2022 In this wide-ranging history, Richard Bernstein explores the connection between sex and power as it has played out between Eastern cultures and the Western explorers, merchants, and conquerors who have visited them. This illuminating book describes the historical and ongoing encounter between these travelers and the morally ambiguous opportunities they found in foreign lands. Bernstein's narrative teems with real figures, from Marco Polo and his investigation into the harem of Kublai Khan; the nineteenth-century American missionary Isabella Thoburn and her efforts to stamp out the "sinfulness" of the Mughal culture of India; Gustave Flaubert and his dalliances with Egyptian prostitutes; to modern-day sex tourists in Southeast Asia, as well as the women that they both exploit and enrich. Provocative and insightful, *The East, The West, and Sex* is a lucid look at a pervasive and yet mostly ignored subject.

Buddhism in the Global Eye Oct 23 2020 Buddhism in the Global Eye focuses on the importance of a global context and transnational connections for understanding Buddhist modernizing movements. It also explores how Asian agency has been central to the development of modern Buddhism, and provides theoretical reflections that seek to overcome misleading East-West binaries. Using case studies from China, Japan, Vietnam, India, Tibet, Canada, and the USA, the book introduces new research that reveals the permeable nature of certain categories, such as "modern", "global", and "contemporary" Buddhism. In the book, contributors recognize the multiple nodes of intra-Asian and global influence. For example, monks travelled among Asian countries creating networks of information and influence, mutually stimulating each other's modernization movements. The studies demonstrate that in modernization movements, Asian reformers mobilized all available cultural resources both to adapt local forms of Buddhism to a new global context and to shape new foreign concepts to local Asian forms.

Philosophy of Engineering, East and West Dec 05 2021 This co-edited volume compares Chinese and Western experiences of engineering, technology, and development. In doing so, it builds a bridge between the East and West and advances a dialogue in the philosophy of engineering. Divided into three parts, the book starts with studies on epistemological and ontological issues, with a special focus on engineering design, creativity, management, feasibility, and sustainability. Part II considers relationships between the history and philosophy of engineering, and includes a general argument for the necessity of dialogue between history and philosophy. It continues with a general introduction to traditional Chinese attitudes toward engineering and technology, and philosophical case studies of the Chinese steel industry, railroads, and cybernetics in the Soviet Union. Part III focuses on engineering, ethics, and society, with chapters on engineering education and practice in China and the West. The book's analyses of the interactions of science, engineering, ethics, politics, and policy in different societal contexts are of special interest. The volume as a whole marks a new stage in the emergence of the philosophy of engineering as a new regionalization of philosophy. This carefully edited interdisciplinary volume grew out of an international conference on the philosophy of engineering hosted by the University of the Chinese Academy of Sciences in Beijing. It includes 30 contributions by leading philosophers, social scientists, and engineers from Australia, China, Europe, and the United States.

East-West Literary Imagination Oct 03 2021 This study traces the shaping presence of cultural interactions, arguing that American literature has become a hybridization of Eastern and Western literary traditions. Cultural exchanges between the East and West began in the early decades of the nineteenth century as American transcendentalists explored Eastern philosophies and arts. Hakutani examines this influence through the works of Emerson, Thoreau, and Whitman. He further demonstrates the East-West exchange through discussions of the interactions by modernists such as Yone Noguchi, Yeats, Pound, Camus, and Kerouac. Finally, he argues that African American literature, represented by Richard Wright, Ralph Ellison, Alice Walker, Toni Morrison, and James Emanuel, is postmodern. Their works exhibit their concerted efforts to abolish marginality and extend referentiality, exemplifying the postmodern East-West crossroads of cultures. A fuller understanding of their work is gained by situating them within this cultural conversation. The writings of Wright, for example, take on their full significance only when they are read, not as part of a national literature, but as an index to an evolving literature of cultural exchanges.

Torn between East and West May 30 2021 This book is a very timely account of the legal, economic and political consequences for border states caught in the current tug-of-war between the West and Russia. The Ukraine crisis of 2014 focused policy-makers' attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the Soviet Union, namely the security dynamics of the border states of Eastern Europe and the Black

Sea. Twenty-five years after the collapse of the Soviet Union, a strong Russia returns alternatively threatening and cajoling, but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta. That conflict, which hotted up over the Ukraine, was soon being played out over - and in the air space over - Syria and Turkey, while the border states themselves are likely to be drawn into the European refugee crisis and have the potential, after the 2015 Paris atrocities, to be breeding grounds for international terrorists. This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East-West divide. *Thecla: Paul's Disciple and Saint in the East and West* Apr 16 2020

Oost-Weststraat Feb 19 2023 De fenomenale voorganger van *De rattenlijn* over de oorsprong van genocide en misdaden tegen de menselijkheid 'Een monumentale prestatie [...] een ingrijpend persoonlijk verslag over de oorsprong van misdaden tegen de menselijkheid en genocide, verteld met liefde, woede en precisie.' John le Carré Als mensenrechtenadvocaat Philippe Sands wordt uitgenodigd om een college te geven in de West-Oekraïense stad Lviv, ontdekt hij een reeks buitengewone historische toevalligheden. Dit is het begin van een speurtocht die hem de halve wereld over zal voeren op zoek naar de oorsprong van het internationaal recht en zijn eigen geheime familiegeschiedenis, beginnend en eindigend met de laatste dag van de Neurenbergprocessen. Drie mannen vormden de leidraad voor Sands' zoektocht: mensenrechtenadvocaten Raphael Lemkin en Hersch Lauterpacht, de grondleggers van de begrippen 'genocide' en 'misdaden tegen de menselijkheid', en Hans Frank, Hitlers advocaat en leider van de nazibezetting in Polen. Het resultaat is een indrukwekkend boek over de Galicische wetten, dat laat zien hoe de wereld na de Tweede Wereldoorlog op juridisch gebied worstelde met iets overweldigends als massamoord. 'Al met al een onontwaaar mengsel van grote en kleine geschiedenis, een magistraal voorbeeld van naspeurwerk, van minimalistische details die door grote vasthoudendheid een totaalbeeld opleveren van een ontluisterend noodlot ... dat je als lezer dagenlang in zijn ban houdt.' Cees Nooteboom, *De Groene Amsterdammer* 'Voor wie wil weten welke rol het Haagse Internationale Strafhof vervult, is Sands' boek niet te versmaden.' Trouw Over *De rattenlijn*: 'Het resultaat is een rijkgeschakeerd verhaal met personages die volop tot de verbeelding spreken.' ***** NRC Handelsblad
