Open and Unabashed Reviews on Ex-Heroes Jun 11 2022 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Ex-Heroes." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

Ex-Patriots Jan 06 2022 The second novel in Peter Clines' bestselling Ex series. It's been two years since the plague of ex-humans decimated mankind. Two years since the superheroes St. George, Cerberus, Zzzap, and Stealth gathered Los Angeles's survivors behind the walls of their fortress, the Mount. Since then, the heroes have been fighting to give the Mount's citizens hope, and something like a real life. But now supplies are growing scarce, the zombies are pressing in . . . and the heroes are wondering how much longer they can hold out. Then hope arrives in the form of a surviving US Army battalion--and not just any battalion. The men and women of the Army's Project Krypton survived the outbreak because they are super-soldiers, created before mankind's fall to be better, stronger, faster than normal humans--and their secure base in Arizona beckons as a much needed refuge for the beleaguered heroes and their charges. But a dark secret lies at the heart of Project Krypton, and those behind it wield an awesome and terrifying power.

The Fold Jun 30 2021 A page-turning science-fiction thriller from the author of Paradox Bound and the Ex-Heroes series. Step into the fold. It's perfectly safe. The folks in Mike Erikson's small New England town would say he's just your average, everyday guy. And that's exactly how Mike likes it. Sure, the life he's chosen isn't much of a challenge to someone with his unique gifts, but he's content with his quiet and peaceful existence. That is, until an old friend presents him with an irresistible mystery, one that Mike is uniquely qualified to solve: far out in the California desert, a team of DARPA scientists has invented a device they affectionately call the Albuquerque Door. Using a cryptic computer equation and magnetic fields to "fold" dimensions, it shrinks distances so that a traveler can travel hundreds of feet with a single step. The invention promises to make mankind's dreams of teleportation a reality. And, the scientists insist, traveling through the Door is completely safe. Yet evidence is mounting that this miraculous machine isn't quite what it seems—and that its creators are harboring a dangerous secret. As his investigations draw him deeper into the puzzle, Mike begins to fear there's only one answer that makes sense. And if he's right, it may only be a matter of time before the project destroys...everything. A cunningly inventive mystery featuring a hero worthy of Sherlock Holmes and a terrifying final twist you'll never see coming, The Fold is that rarest of things: a genuinely page-turning science-fiction thriller.

Supers Feb 13 2020 A galaxy of ripped men, smokin' hot women, and superpowers we all wish we had. It's the stuff wet dreams are made of. All I wanted to do was have some R&R from my time in space with the Marine Corps. My tour was done, my days fighting bad guys over once and for all... Or so I thought. But damn was I wrong. So fucking wrong. Imagine being told you're going to be responsible for bringing a child into the world, one who would have the power to change it all, to once and for all fight off the evil forces threatening to enslave our galaxy and that of the supers who brought the message. That's what happened to me, and now I have to fly across a foreign galaxy and find the super women whose DNA would combine with mine to make the perfect match. We're being hunted by supervillains whose mission it is to terminate us, fighting off their minions while... well... you know. Doing what needs to be done to try and create a baby. Don't judge me. Any Marine would've jumped at this opportunity, as crazy as it might seem. Just sit back, strap in, and enjoy the ride. Ex-Isle Nov 16 2022 "It is an easy thing to rule by fear." It's been years since the tidal wave of ex-humans washed over the world. Since then, thanks to St George and his fellow heroes, the community known as the Mount has been the last known outpost of safety, sanity, and freedom left to humanity. But even for the Mount, survival still balances on a razor's edge—and after a disaster decimates the town's food supply, the heroes must make a risky gamble to keep its citizens from starving. And then the news arrives of a strange, man-made island in the middle of the Pacific. An island populated not just by survivors, but by people who seem to be farming, raising children, living—people who, like the heroes, have somehow managed to keep the spark of civilization alive. Paying this place a visit should be a simple goodwill mission, but as the island reveals itself to be a sinister mirror-image of what the heroes have built at the Mount, the cost of their good intentions becomes dangerously high.
