the Great Uralic and Altaic Series*

Viking warriors were feared by their contemporaries and their ferocious reputation has survived down to the present day. This book covers the military history of the Vikings from their early raiding to the final failure of their expansionist ambitions directed against England. In that period Viking warbands and increasingly large armies had left their Scandinavian homelands to range across vast regions, including the whole of Northern Europe and beyond, even reaching North America. The British Isles were terrorized for two centuries and at times largely conquered, in Normandy, Russia and elsewhere they also settled and founded states. Tough, skilled and resourceful, with a culture that embraced the pursuit of immortal fame and a heroic death in battle, their renown as warriors was second to none. As far afield as Constantinople, the Byzantine emperors employed them as their elite Varangian Guard. Gabriele Esposito outlines the history of their campaigns and battles and examines in detail their strategy, tactics, weapons, armour and clothing. The subject is brought to life by dozens of color photographs

of replica equipment in use. War-loving Vikings rip Rosfrith from her Dunwich home while she's still a mere child. As she grows to womanhood, she settles into life as a slave to the chieftain, Ubba Ragnarsson. When Rosfrith finds herself falling for Ubba, she resolves to keep her distance -- he already has a bedmate. But when Ubba reciprocates Rosfrith's feelings, she must face not only the wrath of his jealous bedmate, but the contempt of all the other slaves and the disapproval of Ubba's friends. Can she survive the deceptions and manipulations of those who wish to destroy the mere slave who has won the heart of a powerful man? This historical romance captures the imagination with a story of love, greed, jealousy, and deception. The story of the Norse is a Viking adventure in history. The Norse saga began with the first ancient tribes of Norsemen during the Early Nordic Stone Age. The beginning of the Nordic Ax Culture when primitive Norsemen created their first battle axes from stone. The evolution of an innovative and progressive culture that groomed legendary warriors whose voices still roar out today. Take a journey into the Age of Viking Expansion where Ragnar Lothbrok, Rollo, Erik the Red, and many other famous Vikings take you on a ride into the very Halls of Valhalla. Very interesting and

worth the read to anyone interested in the Vikings or Norse history. Explore knowledge and technology specific to a culture that was shaped by a people able to reach great distances beyond their homelands and seas. A battle ferocious people with shields, armor, and weaponry that was unmatched by their opponents. A whole new world of understanding about the ancient vikings has been opened up by new archaeological discoveries and studies. New findings that lead to new questions. Could some of the mythological tales about giants in the Norse Sagas have had some truth behind them? Researchers have found proof of giants and humans interacting together in our own DNA! There are also many shared technologies between the Ancient Norse, Asians, the Inuit and other North American aborigines. Viking explorers have long interacted and traded with many people and cultures afar. Were ancient Norse already in contact with early Native Americans? Were these the people they referred to as "Skraelings?" Were they Proto-Inuits known by the ancients as Thule People? See for yourself with new information about the Norse that was once lost in time. In this compelling military and political history of the Anglo-Saxon kingdom, Paul Hill explores England's birth amidst the devastation and fury of the Danish invasions of the ninth century. He

provides insight into the English response to the new challenges of warfare in these years of turbulence and danger. Alfred the Great, youngest son of King Æthelwulf, took control of the last surviving Anglo-Saxon kingdom, bringing Wessex and the 'English' parts of Mercia together into a new 'Kingdom of the Anglo-Saxons'. This is a story of betrayal and of vengeance, of turncoat oath-breakers and loyal commanders, of battles fought and won against the odds. But above all, this is the story of how England came into being. Warfare in Alfred's England changed from attritional set-piece battles to a grander strategic concern. This is explored, demonstrating how defense-in-depth fortification networks were built across the resurgent kingdom in the wake of Alfred's victory at Edington in 878. The arrival of new Danish armies into England in the 890s would lead to campaigns quite unlike those of the Great Heathen Army of the previous generation. This is a human, as well as a military story: how a king demonstrated his right to rule was important. Alfred sought to secure the succession on his son Edward, who led his own forces as a young man in the 890s. But not everybody was happy in Alfred's England. Despite the ever-present threat from the Danes, the greatest challenge facing Alfred arose from his own kin, centred deep in

the heart of ancient Wessex. Alfred knew very well that his was not the only branch of the family who claimed a right to rule. Exam Board: OCR Level: A-level Subject: History First Teaching: September 2015 First Exam: June 2016 This is an OCR endorsed resource Build strong subject knowledge and skills in A Level History using the in-depth analysis and structured support in this tailor-made series for OCR's British period studies and enquiries. - Develops the analytical skills required to succeed in the period study by organising the narrative content around the key issues for students to explore - Enhances understanding of the chosen historical period, supplying a wealth of extracts and sources that offer opportunities to practise the evaluative skills needed for the enquiry - Progressively improves study skills through developmental activities and advice on answering practice exam questions - Helps students to review, revise and reflect on the course material through chapter summaries and revision activities that consolidate topic knowledge - Equips students with transferable critical thinking skills, presenting contrasting academic opinions that encourage A Level historians to make informed judgements on major debates Each title in the OCR A Level History series contains one or two British

period studies and its associated enquiry, providing complete support for every option in Unit Group 1. Early Medieval England 871-1107 This title explores the reigns of Anglo-Saxon and Norman Kings from Alfred the Great to William II through two British period studies and two enquiries. It allows an in-depth understanding of the key historical knowledge, terms and concepts relevant to the period studied and encourages the critical use of evidence in investigating and assessing historical questions in the associated enquiries: 'Alfred the Great' and 'Norman England 1087-1107'. This title covers the following period studies and enquiries: - Alfred the Great - The Making of England 849-1016 - Anglo Saxon England and the Norman Conquest 1035-1087 - Norman England 1087-1107 The fascinating story of one of England's most famous monarchs, Alfred the Great, from his birth to the discovery of a piece of his pelvis in a cardboard box in a museum in Winchester

Uitgebreide geschiedenis van het volk van de Noormannen, die de zeeën bevoeren en in de Middeleeuwen West-Europa plunderden en deels overheersten. In this the second part of his four-volume military and political history of the Anglo-Saxon kingdom, Paul Hill follows the careers of Æthelflæd, Alfred the Great's eldest daughter, and Edward the Elder,

Alfred's eldest son, as they campaigned to expand their rule after Alfred's death. They faced, as Alfred had done, the full force of Danish hostility during the early years of the tenth century, a period of unrelenting turbulence and open warfare. But through their military strength, in particular their strategy of fortress building, they retained their hold on the kingdom and conquered lands which had been under Danish lords for generations. Æthelflæd's forces captured Derby and Leicester by both force and diplomacy. Edward's power was always immense. How each of them used forts (burhs) to hold territory, is explored. Fortifications across central England became key. These included Bridgnorth, Tamworth, Stafford, Warwick, Chirbury and Runcorn (Æthelflæd) and also Hertford, Witham, Buckingham, Bedford and Maldon (Edward), to name a few. Paul Hill's absorbing narrative incorporates the latest theories and evidence for the military organization and capabilities of the Anglo-Saxons and their Danish adversaries. His book gives the reader a detailed and dramatic insight into a very sophisticated Anglo-Saxon kingdom. The Viking age exploded like a thunderbolt out of the blue onto the international stage during the latter part of the 8th century. By the middle of the next century, the piratical raids for

booty and plunder gave way to outright conquest and colonisation. In the West, the British Isles bore the brunt of this aggression in the form of the campaigns of the "Great Heathen Army" which not only dismantled the Anglo-Saxon Kingdoms of England, but also the Pictish and Briton dominions of modern day Scotland and the Celtic Principalities of Ireland. On the continent of mainland Europe Viking armies challenged the great Empire of Charlemagne. Ragnar Lodbrok's sack of Paris in 845 AD showed that no city or Kingdom was safe from the fury of the North-men. His sons and other Viking warlords embarked on a reign of terror that would bring Western civilisation to its very knees, eventually resulting in the creation of the Duchy of Normandy at the Treaty of St Clair Sur Epte in 911 AD. However Viking campaigns to create a second Normandy in Brittany, Aquitaine and Spain have been shrouded in mystery until now. "The Vikings and Their Age offers a quick overview of the chronology and major themes of the Viking period. Written in an accessible manner, it also provides a great introduction to some of the most interesting and significant figures in Viking lore, such as Harald Bluetooth, Eirik the Red, Leif Eiriksson, and Gudrid Thorbjarnardottir, a female Viking traveller. Insights and evidence from such diverse

disciplines as archaeology, philology, linguistics, and genetics are provided. The story of the Norse begins with the first ancient tribes during the early Nordic Stone Age. There originated the Nordic Ax Culture when primitive Norsemen create their first stone battle axes. An incredible evolution of an innovative and progressive culture that groomed legendary warriors whose voices still roar out today. Take a journey into the Age of Viking Expansion where Ragnar Lothbrok, Rollo, Erik the Red, and many other famous Vikings take you on a ride into the very Halls of Valhalla. Learn about Norse culture, marriage customs, baby naming ceremonies, and the sacrificial blóts used in spiritual and religious observances. Explore legendary Norse such as the Jómsvíkings, Varangian, and Rus'. The Vikings played ball and board games and had their own form of martial arts called Glima. Explore knowledge and technology specific to a culture that was shaped by a people who were able to reach great distances across seas beyond their homelands. A battle ferocious people who were unmatched by their opponents. There's a whole new world of understanding about the ancient vikings has been opened up by new archaeological discoveries and studies. New findings that lead to new questions about the Jötnar, often

called frost giants. There were many shared technologies between the Ancient Norse, the Inuit and other Native American aborigines. Viking explorers have long interacted and traded with many people and cultures afar. Were ancient Norse already in contact with early Native Americans? See for yourself with new information about the Norse that was once lost in time. History of Vikings Thank you for purchasing "History of Vikings: An Epic Guide to the Viking Age and Feared Norse Seafarers. Such as Egil Skallagrimsson, Ragnar Lothbrok, Ivar the Boneless, and More'' History is always filled with information, which describes different events that took place at different periods. As we read history books, we learn and discover about certain events. We learn what preceded those events or what caused them. We want to know why things were as they were (or how we learned). However, the main thing with history is that information we have can often be misleading or incomplete. The similar thing happened with Vikings. For many of us, the first picture that comes to our minds when we mention the word "Viking" is a savage, colossal man, wearing a beard, and carrying a huge axe in one hand. Many of us have at least heard of the Vikings. We think we know something about them. However, things we know are usually not in correlation with

the real historical facts. This is where this book comes to the scene. "History of Vikings" is a book where we read about Vikings, their customs, their life, and more. Since the book is a collection of close historical facts, "History of Vikings" is written to educate its readers. If you wanted to know more about the mystical people from the Northern Europe then this book is just for you! Here is a Preview of What You Will Get: □ A Full Book Summary □ An Analysis □ Fun quizzes □ Quiz Answers □ Etc Get a copy of this summary and learn about the book. Z2 Comics and Amon Amarth come together to bring you their debut graphic novel.

Sweden's Amon Amarth represents one of the driving forces in modern metalhead culture. In the 9th century, a coalition of Viking warriors from Scandinavia invaded England, reaving unprecedented chaos throughout Great Britain. Death metal pioneers Amon Amarth and Z2 Comics will now present that tale in all of its carnage and mayhem in THE GREAT HEATHEN ARMY-INVASION, coinciding with the band's 2022 album. Written by Dan Watters (Lucifer, Arkham City) and illustrated by Ario Murti, this epic graphic novel captures the devastating human cost to both sides of this brutal clash. This story is set in the year 880, two years after King Alfred's famous victory over the great heathen army at Edington, which had been led

by Jarl Guthrum. Until the formal peace treaty is ratified, there remains an uneasy peace between what remains of Mercia and the Saxon Christian Kingdom of Wessex and the north-eastern part of Mercia and East Anglia, now known as the Danelaw. It is ruled by Guthrum, who, on becoming a Christian, is now known as King Æthelstan. Constant raiding and fighting along the unratified borders has left England in turmoil, even with the uneasy peace between Alfred's Wessex and Guthrum's Danelaw. Raiding by Norse Vikings is still continuing all along the coast of Wessex. King Alfred has started to protect his kingdom by building fortified burhs across his lands and to build his own navy. Into this tumultuous upheaval, almost by chance, is Wulfric, the seventeen-year-old son of Earldoman Hrothwulf. Along with his friends Acca, Raulf, and Brother Cahir (a Benedictine monk), the young Saxon lord embarks on a series of adventures, which take him from a youthful life of carefree privilege into the world of violence, treachery, betrayal, and love. For the young Wulfric, the transition from youth into manhood is swift and terrifyingly brutal. Wulfric helps to save a young Norse lord named Alrik and his friend Arnkell from the wrath of his father, Hrothwulf, as he hunts down Alrik and his men. Based on Peter Trudgill's weekly column in the

Eastern Daily Press newspaper, this book has two overall messages. The first is that language is a fascinating and enjoyable phenomenon which not enough people know enough about. The second is that we should not discriminate negatively against individuals and groups because of their accent, dialect or native language. Linguistic prejudice, known as 'linguicism', is more publicly and shamelessly demonstrated than racism and sexism, as is 'prescriptivism', the practice of elevating one language or language variety as 'better' than another. Written in an entertaining and accessible style, Trudgill's columns support the language of ordinary people and explore topics such as nonstandard versus standard dialects; vernacular (everyday) language as opposed to politically correct language; informal vocabulary as opposed to business-school jargon; and minority versus majority languages. Each article is also accompanied by notes designed for students and those unfamiliar with the East Anglian setting. In the spring of 878 at the Battle of Edington the tide of English history turned. Alfred's decisive defeat of Guthrum the Dane freed much of the south and west of England from Danish control and brought to a halt Guthrum's assault on Alfred's Wessex. The battle was the

culmination of a long period of preparation by Alfred in the wilderness - a victory snatched from the jaws of catastrophic defeat. As such, this momentous turning point around which an entire nation's future pivoted, has given rise to legends and misconceptions that persist to the present day. Paul Hill, in this stimulating and meticulously researched study, brings together the evidence of the medieval chronicles and the latest historical and archaeological research to follow the struggle as it swung across southern England in the ninth century. He dispels the myths that have grown up around this critical period in English history, and he looks at Alfred's war against the Vikings with modern eyes. This is the untold version of an old story - Alfred's life through his own eyes. This book, plus Book II - describing the 2nd part of Alfred's life, is intended as the first in a series of similar books on successive monarchs, which it will be if you help to make it popular. Many people in the western world maintain the contradictory notions that the pirates of old were romantic social bandits while their modern brethren are brutal thugs, thieves, and villains. In *Global Piracy*, James E. Wadsworth compiles and contextualizes a wealth of primary source documents which illustrate the global phenomenon of piracy through the eyes

and voices of those who experienced it: both the pirates or privateers themselves and their victims. The book allows us to confront our stereotypes by giving us access to "real" pirates in a wide range of historical periods and global regions, from ancient Greece to modern day Nigeria, unfiltered as much as possible by authorial voice or interpretation. *Global Piracy* seeks neither to romanticize nor vilify pirates, but simply to understand them in the context of their times and the broader world they inhabited. Departing from run-of-the-mill narratives, it selects documents which provide new and fascinating insights into piracy around the globe. With documents introduced by contextual information, and supplemented by study questions, suggested reading lists, illustrations and maps, this book is an essential companion for anyone studying the history of piracy. Did you know that Vikings liked to slurp blood soup for supper? Highly-practised in the art of thuggery, the Vikings loved their drink, sacrificed humans in the name of religion and didn't bother with school! Any history book will give you the boring facts THEY think you should know, but only this one will tell you what the blood-thirsty Vikings were REALLY like ... The Viking horde known as the Great Heathen Army invade Cent in the autumn of 865

AD and defeat the local Saxon fyrd at the Battle of Salteode. A youth called Alric is captured and his brother, thirteen year old Jørren, decides to undertake the seemingly impossible task of rescuing him. Accompanied only by a slave not much older than he is, Jørren sets out to find Alric. His quest takes him into war-torn East Anglia and up through Northumbria as far as Hadrian's Wall. On the way he gathers a rag-tag collection of orphans and welds them into a small, tightly-knit, warband. They play a small, but important, part in the struggle against the Vikings before eventually reaching Wessex, where Alfred has just become king. Now older and an experienced warrior, Jørren joins him and over subsequent years rises in status to become one of Wessex's ealdormen. However, the Vikings are determined to defeat Alfred and complete their conquest of England. By 871 AD it is doubtful whether Jørren or Wessex itself can survive their onslaught. This first novel in the Saga of Wessex series will enthral all readers who have come to love H A Culley's previous books set in early medieval Northumbria. Drawing on a wide range of primary sources, and tracing the astonishing development of the Viking age from the first foreign raids to the rise and fall of empires, this comprehensive reader is essential to an

understanding of Viking history. Chroniclers record European horror in the face of the Viking onslaught. An Arab diplomat gives a gripping account of an encounter with Norsemen in Russia. Great warriors and kings of the period are heralded in Skaldic poetry. With unusual power, saga literature narrates the lives of Norse women and men at home and abroad. Brief introductions contextualize the translations and all unfamiliar terms are explained in the body of the text, making this an extremely readable and user-friendly introduction to the Viking age. In 865 AD a huge Viking army appeared out of the mists of the North Sea from Scandinavia and landed on the East Anglian coast. Their objective was nothing less than the total conquest of Anglo-Saxon England and the whole of the British Isles. Numbering some 10,000 to 15,000 men the "Great Heathen Army" was the largest invasion force since Roman Legions had landed on the shores of Britannia back in 43 AD. During a 14 year reign of terror they left a brutal trail of destruction in their wake. At its head the army was led by the vengeful sons of the Viking adventurer, Ragnar Lodbrok "Hairy breeches." The mastermind behind the invasion became one of the most feared and cruel warlords of the Viking age, Ivar "the Boneless." His shadow cast a dark cloud over

the British Isles that ultimately led to the unification and creation of the nation state of England. "In the year 865 CE, a coalition of Viking forces combined to form an army aimed at the conquest and settlement of England. Known as The Great Heathen Army, these Vikings managed to capture most of the territory that today constitutes England, with the notable exception of the English kingdom of Wessex. And so, despite many successes, they failed to conquer all of English territory. Though these events, which transpired throughout the 860s and 870s, are well documented, the Viking perspective is rarely taken into account and there has yet to have been an argument that pinpoints how and why the Great Army was defeated. The purpose of this thesis will be to determine why the Great Army failed in their attempt to conquer all of the lands that belonged to the Anglo-Saxons"--Abstract, leaf ii. REVIEWS OF PREVIOUS BOOKS IN THE SERIES I haven't read a bad H A Culley book and I have read most of this author's work. I can recommend his books to anyone Real page Turner. Hooked from the start. The whole series of the books are a great read A very exciting story, but then again I always expect that from this great author Great book, historically accurate and well written SYNOPSIS The sons of Ragnar

Lothbrok, the notorious Viking king, vow revenge on King Ælle of Northumbria for killing their father by throwing him into a pit of vipers. They gather a vast host of Danes and Norsemen to invade England and kill Ælle. However, for Ivar the Boneless, Ragnar's eldest son and the leader of the Great Heathen Army, it is more about conquest than revenge. After overrunning East Anglia they annihilate the Northumbrian army outside York. Ælle is captured and suffers the blood eagle, a horrendous way to die. Two young men - Ricsige, Lord of Bebbanburg, and his military tutor, Drefan - escape the carnage and must build a new army if their way of life is to survive. Together they manage to preserve the old Kingdom of Bernicia - the North Eastern part of Northumbria - and hold it against both the Vikings and the Scots, who have long wanted to push their border south to the Tweed. Whilst the Vikings battle against King Alfred of Wessex in the south and expand their territory across the sea in Ireland, Ricsige and Drefan manage to keep the banner of the Wolf flying in an independent Bernicia against all the odds. When Ricsige is killed during negotiations with Halfdan - another of Ragnar's sons and the ruler of the southern half of Northumbria - he is succeeded by his brother, an imperious and overconfident boy of

twelve who ignores Drefan's advice at every turn. Can Anglo-Saxon Bernicia survive? This biography of Alfred the Great, king of the West Saxons (871-899), combines a sensitive reading of the primary sources with a careful evaluation of the most recent scholarly research on the history and archaeology of ninth-century England. Alfred emerges from the pages of this biography as a great warlord, an effective and inventive ruler, and a passionate scholar whose piety and intellectual curiosity led him to sponsor a cultural and spiritual renaissance. Alfred's victories on the battlefield and his sweeping administrative innovations not only preserved his native Wessex from viking conquest, but began the process of political consolidation that would culminate in the creation of the kingdom of England. Alfred the Great: War, Kingship and Culture in Anglo-Saxon England strips away the varnish of later interpretations to recover the historical Alfred pragmatic, generous, brutal, pious, scholarly within the context of his own age. Rosfrith's childhood changes forever after war-loving Vikings capture her home. Frightened by the axe-wielding barbarians, and torn from everything she knows and loves, she is forced to forget her privileged life. When she is abandoned by her parents and her life is

threatened, is there anyone that she can trust to turn to for help? Ubba, who dutifully followed his brother to Britain to avenge his father's death is a strong warrior, hardened to life. He finds himself conflicted when Rosfrith awakens a protective streak he didn't know he had. And, when he finally notices that Rosfrith is no longer a child, other feelings stir. But, will he risk everything for a mere slave?

Create a stimulating, well-paced teaching route through the 2016 GCSE History specification using this tailor-made series that draws on a legacy of market-leading history textbooks and the individual subject specialisms of the author team to inspire student success.

- Motivate your students to deepen their subject knowledge through an engaging and thought-provoking narrative that makes historical concepts accessible and interesting to today's learners
- Embed progressive skills development in every lesson with carefully designed Focus Tasks that encourage students to question, analyse and interpret key topics
- Take students' historical understanding to the next level by using a wealth of original contemporary source material to encourage wider reflection on different periods
- Help your students achieve their potential at GCSE with revision tips and practice questions geared towards the changed

assessment model, plus useful advice to aid exam preparation - Confidently navigate the new AQA specification using the expert insight of experienced authors and teachers with examining experience A team of leading scholars in the fields of Medieval Literature and History examine the origins of European ethnic groups which subsequently developed into the nations of Europe. The contributors look at evidence for the existence of an ethnic consciousness among the dominant European groups; this later formed the basis of nation states. The reconstruction and invention of the past by medieval writers in search of ethnic origins for their own particular political or tribal groups is also studied from a literary and historical point of view. In Viking Warriors, the Norse invaders, as infamous for their brutality as their exploration, come to life. Students will read about raids, battles, and key fighters and leaders. Illustrations, engravings, and relics depict the Norse culture, marine and combat technology, and fighting styles that gave them the advantage in battle. Maps and diagrams demonstrate their ambitious expansion and conquest of cities and people throughout the Northern hemisphere. With their far-reaching longships and fierce tactics, the influence and violence of the Vikings spread

from America to the Middle East, leaving behind traces of an iconic culture and combative strategy. In the early 5th century, Germanic Angles, Saxons and Jutes crossed the North Sea in increasing numbers and began settling among the ruins of the former Roman province of Britannia. This led to centuries of warfare as these 'Anglo-Saxons' carved new, independent kingdoms at the point of the sword, fighting the native Britons and each other. From the late eighth century they also had to face the threat of the Vikings, at first as opportunistic raiders but increasingly bent on conquest. The last Viking invasion was defeated by Harold Godwinson at Stamford Bridge but he was defeated by the Normans in that same fatal year of 1066, ending the Anglo-Saxon Age. Gabriele Esposito gives an overview of Anglo-Saxon military history, narrating the great campaigns, such as those of Alfred the Great of Wessex and Harold Godwinson. He discusses in detail the composition of Anglo-Saxon forces, their tactics, weapons and equipment, detailing developments across the period. The informative, accessible text is supported by dozens of color images showing replica Saxon war gear in use. The famous Viking, Ragnar Lodbrok, accomplished many great deeds according to the Viking Sagas associated with

him. However, for many, it is his personal life, and the women who loved him that garners the most interest. So, who were these women and why did they love him? Find out: *Who the Vikings were *Who Ragnar was *How many wives he really had *Who his other lovers and mistresses were *Which of his famous sons were attributed to each woman *Which historical texts tell Ragnar's story

In a world plagued with darkness, she would be his salvation. No one gave Erik a choice as to whether he would fight or not. Duty to the crown belonged to him, his father's legacy remaining beyond the grave. Taken by the beauty of the countryside surrounding her, Linzi would do anything to protect her father's land. Britain is under attack and Scotland is next. At a time she should be focused on suitors, the men of her country have gone to war and she's left to stand alone. Love will become available, but will passion at the touch of the enemy unravel her strong hold first? Fall in love with this Historical Celtic Viking Romance. * There are 3 books in this series. Book 1 will end on a cliff hanger. *Note: this is NOT erotica. It is a romance and a love story. A historical romance, which captures the imagination with a story of love, deception, adventures, and revenge. How did the Vikings know when to strike? What were their military strengths? Who were their leaders? What was the impact of their raids? These and many more questions are answered in this volume, which will benefit students and general readers alike. The only encyclopedia devoted specifically to the topic of conflict, invasions, and raids in the Viking Age, this book presents detailed coverage of the Vikings, who are infamous for their violent marauding across Europe during the early Middle Ages. Featuring extracts of poetry and prose from the Viking Age, the book provides cultural context in addition to an in-depth analysis of Viking military practices. What does the 'Dark Ages' mean in contemporary

society? Tackling public engagements through archaeological fieldwork, heritage sites and museums, fictional portrayals and art, and increasingly via a broad range of digital media, this is the first-ever dedicated collection exploring the public archaeology of the Early Middle Ages. Exam board: OCR (Specification B, SHP) Level: GCSE (9-1) Subject: History First teaching: September 2016 First exams: Summer 2018 An OCR endorsed textbook Let SHP successfully steer you through the OCR B specification with an exciting, enquiry-based series, combining best practice teaching methods and worthwhile tasks to develop students' historical knowledge and skills. The engaging, accessible text covers the content you need for teacher-led lessons and independent study Step-by-step enquiries inspired by best practice in KS3 help to simplify lesson planning and ensure continuous progression within and across units The scaffolded three-part task structure enables students to record, reflect on and review their learning Suitably challenging tasks encourage high achievers to excel at GCSE while clear explanations make key concepts accessible to all A range of purposeful, intriguing visual and written source material is embedded at the heart of each investigation to enhance understanding Memorable case

studies, diagrams, infographics and contemporary photos bring fascinating events and people to life At the height of their power in the ninth and tenth centuries, the Vikings seemed invincible – conquering, well-armed warriors whose ships were the ultimate in seafaring technology. From island bases near the deltas of major rivers, they used the waterways to scour the countryside, looting and burning towns, plundering merchant shipments, and stripping churches and monasteries of their gold, silver, and jeweled treasures. The Norsemen eventually penetrated all of England and Scotland, founded cities in Ireland, gained a powerful province in France, controlled Frisia and the modern Netherlands, and raided lands around Spain, passing into the Mediterranean to attack Italy and North Africa. They established the first Russian kingdom, challenged Constantinople, and provided a personal guard for the Byzantine emperor. They settled Iceland, where they developed Europe's first republic, founded two colonies on Greenland, and explored parts of North America five centuries before Christopher Columbus landed in the Americas. Then, like the abrupt end of a summer thunderstorm, their adventures ceased. Here is their dramatic story. Heart of the Battle Series: Box Set of Books #1-3 Book 1 - Celtic

Viking In a world plagued with darkness, she would be his salvation. No one gave Erik a choice as to whether he would fight or not. Duty to the crown belonged to him, his father's legacy remaining beyond the grave. Taken by the beauty of the countryside surrounding her, Linzi would do anything to protect her father's land. Love will become available, but will passion at the touch of the enemy unravel her strong hold first? Book 2 - Celtic Rune

In a world plagued with darkness, she would be his salvation. Linzi risks everything when, instead of killing the savage Viking lying already half-dead on her field, she chooses to save him. With her brother gone to war and her father gravely ill, she watches over their home and helps the handsome stranger back to health. Erik never planned to fall in love with the foreign land under his feet, nor did he think he would ever wake in the arms of a fiery red-haired Scot woman who won't leave his thoughts. Will passion at the touch of the enemy unravel everything they have spent their lives building? Fall in love with this

Historical Celtic Viking Romance. Book 3 - Celtic Mann In a world plagued with darkness,

she could be his salvation. The Vikings are on the verge of losing the battle of taking over the Britains. Their commander was thought to be dead, but is now siding with the enemy. Erik has been labelled; the Viking who kills his own men. The prince and heir to the throne is in love with a fiery Highland woman. He must decide between loyalty, family and love. His family and his army are in ruins. He may be the only one who can save them. Yet, the woman he loves could be carrying his child. He must choose between them as he cannot have everything. Search Terms: historical romance, romance, viking, viking romance, highlander, J.S. Scott, free romance series, romance series, historical romance series, love story, romantic suspense, womans romance, harlequin, sweet love story, battle, epic
