The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Contemporary African Literature in English explores the contours of representation in contemporary Anglophone African literature, drawing on a wide range of authors including Chimamanda Ngozi Adichie, Aminatta Forna, Brian Chikwava, Ngug? wa Thiong'o, Nuruddin Farah and Chris Abani. This title discusses why literature matters, how narrative works, and what is distinctly English about English literature. Jonathan Bate considers how we determine the content of the field, and looks at the three major kinds of imaginative literature - English poetry, English drama and the English novel.

The study of medieval literature has experienced a revolution in the last two decades, which has reinvigorated many parts of the discipline and changed the shape of the subject in relation to the scholarship of the previous generation. 'New' texts (laws and penitentials, women's writing, drama records), innovative fields and objects of study (the history of the book, the study of space and the body, medieval masculinities), and original ways of studying them (the Sociology of the Text, performance studies) have emerged. This has brought fresh vigour and impetus to medieval studies, and impacted significantly on cognate periods and areas.

The Oxford Handbook of Medieval Literature in English brings together the insights of these new fields and approaches with those of more familiar texts and methods of study, to provide a comprehensive overview of the state of medieval literature today. It also returns to first principles in posing fundamental questions about the nature, scope, and significance of the discipline, and the directions that it might take in the next decade. The Handbook contains 44 newly commissioned essays from both world-leading scholars and exciting new scholarly voices. Topics covered range from the canonical genres of Saints' lives, sermons, romance, lyric poetry, and heroic poetry; major themes including monstrosity and marginality, patronage and literary politics, manuscript studies and vernacularity are investigated; and there are close readings of key texts, such as *Beowulf*, *Wulf and Eadwacer*, and *Ancrene Wisse* and key authors from Ælfric to Geoffrey Chaucer, Langland, and the *Gawain Poet*.

In mei 1866 schrijft Leo Tolstoj het woord einde onder een manuscript dat generaties lezers in zijn ban zal krijgen. Aanvankelijk heet het boek *Eind goed*, al goed, later wordt de titel veranderd in *Oorlog en vrede*. Het verhaal eindigt met een dubbel huwelijk, en niet met de dood van de grote held vorst Andrej Bolkonski. Delen van het manuscript worden gepubliceerd in tijdschriften en de auteur doet verscheidene pogingen het boek gedrukt te krijgen. Pas drie jaar later zal het boek verschijnen. Deze editie is de oerversie, in de prachtige Nederlandse vertaling van Peter Zeeman en Dieuwke Papma. Deze *Oorlog en vrede* is ongeveer half zo lang als de gecanoniseerde versie, ontbeert de lange

uitweidingen over geschiedfilosofie, bevat vele andere scènes en verwickelingen en leidt naar een geheel ander einde. Met de uitgave van deze oorspronkelijke versie zag een nieuwe, frisse Tolstoj het licht. An Asset Of Incalculable Worth For Students, Teachers, Researchers And Scholars. Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures many of the most important texts are translations, from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more 'visible'. Concentrating on major writers and works, it covers translations out of many languages, from Greek to Korean, from Swahili to Russian. For some works (e.g. Virgil's Aeneid) which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text (e.g. poetry, oral literature). The second, much longer, part consists of entries grouped by language of origin; some are devoted to individual texts (e.g. the Thousand and One Nights) or writers (e.g. Ibsen, Proust), but the majority offer a critical overview of a genre (e.g. Chinese poetry, Spanish Golden Age drama) or of a national literature (e.g. Hungarian, Scottish Gaelic). There is a selective bibliography for each entry and an index of authors and translators. Ranging from early medieval times to the present, this diverse collection explores the myriad ways in which literary texts are informed by their historical contexts. The thirty-one chapters draw on varied themes and perspectives to present stimulating new readings of both canonical and non-canonical texts and authors. Written in a lively and engaging style, by an international team of experts, these specially commissioned essays collectively represent an incisive contribution to literary studies; they will appeal to scholars, teachers and graduate and undergraduate students. The book is designed to complement Paul Poplawski's previous volume, English Literature in Context, and incorporates additional study elements designed specifically with undergraduates in mind. With an extensive

chronology, a glossary of critical terms, and a study guide suggesting how students might learn from the essays in their own writing practices, this volume provides a rich and flexible resource for teaching and learning. De liefde moet `als een orkaan uit de hemel komen', vindt Emma Rouault, die op het meisjesspensionaat gezwijmeld heeft bij het lezen van de uiterst dweperige geschriften die daar de ronde deden. Maar haar behoefte aan een vurige liefde wordt niet vervuld in haar huwelijk met een goedmoedige plattelandsdokter Charles Bovary. Ook de gepassioneerde buitenechtelijke relaties waarin zij zich vol overgave stort schenken haar niet het geluk waarvan ze droomt. Flaubert tekent met een scherp oog voor de fijnere gevoelens het leven van een vrouw die te gronde gaat aan haar illusies. Starting with the European roots of romance, Dr Barron devotes the main body of his book to a detailed study of the English corpus. He discusses its rich variety of forms in the later Middle Ages, concluding that the English romances show their own conception of the romantic `mode'.
