2017-2018 update. This little booklet has been fully revised this year. Two overlapped sections ("Additional things for admission order" and "floor orders")**

*are finally combined. Some redundant sections are removed based on the feedback we received. More management sections (such as managing acute alcohol intoxication, sepsis, renal failure, etc) are added. New section on "Introduction to Cardiology Procedures" is added. All the sections are edited and at least one-third of the book has changed. The sole purpose of this booklet is to help new interns in the beginning of the year. It is mostly focused on inpatient medicine and ICU rotations - how to handle the most common floor calls, such as chest pain, uncontrolled HTN, vomiting and to help guide running RRT/ Code Blue. With advances in technology such as widespread use of electronic medical records, this booklet has been electronically formatted to meet the demands of dynamic medical system. We hope this booklet will make your intern year less stressful, so that you can focus on learning, the decision making process, and ultimately, better patient care.*

*you will encounter many new challenges. These will range from very simple to most complex. Please remember that you have acquired the tools to address this adversity. And, even when you feel most overwhelmed, you are undoubtedly surrounded by a wealth of available resources that include ancillary and nursing staff, fellow interns, senior residents and attending physicians. Although the year ahead of you may now seem long and daunting, your tasks (other than survival) are quite achievable. The following competencies/milestones were copied from the curriculum for the in-patient general medicine rotation for the internship program at Washington University School of Medicine and Barnes-Jewish Hospital. You can see that not only are the objectives quite simple, but your rigorous work in medical school has well prepared you to master many of your goals. Throughout the year, use these objectives as a checklist to remind yourself of your accomplishments and to guide your learning in potential areas of weakness. - Patient care: o Gather*
